

Hi rail drill rig

What is a track mounted drill rig?

Geotech operates a fleet of track mounted drill rigs throughout our operations. Outfitted with a track system, these rigs are perfect for difficult access locations, where access conditions are difficult. Our track rigs have been designed to service many industry sectors including; construction, mining, oilfield, dams, and pipeline investigation.

What services can a hi-rail shop offer for me?

Tartaglia Railroad Services' hi-rail shop has the expertise to meet your specific hi-rail needs. They are completely equipped for any build, rebuild, or repair. They work on and/or provide pickups, log trucks, rotary dumps, excavators, drilling rigs, pole trucks, Gradalls, and more.

How long does it take to install a hi rail attachment?

Finally! A hi rail attachment that can be installed in weeks or days, not months, without machine modifications. After the initial set-up, you can fully remove your hi-rail gear in less than a day. Brand agnostic. Some models fit on multiple machines of the same class.

Are NEBC drill rigs RR certified?

All drill rigs at NEBC are fully capable to perform all the services we offer. Able to quickly transition into a driving vehicle when getting on and off tracks quickly is of importance. NEBC has multiple, experienced drilling crews that regularly participate in RR certification classes such as AMTRACK and MBCR (Keolis). Have a question?
