Which DTH hammers are best for drilling rigs?

Thus, smaller compressors rated less than 1,000 SCFM that are common on many drill rigs, may now be utilized with the A Series DTH hammer to reach the hammers' peak performance. Rockmore's T Series hammer class is a breakthrough in DTH drilling technology for mining, construction, and water-well applications.

What materials are used to make downhole tools?

All downhole tools are manufactured with either 4145 heat treated alloy steel or premium stainless steel (non-magnetic) materials in accordance with API specifications to ensure high quality products for every application.

What is a DTH drill bit?

DTH bits feature inserts made from cemented carbide for increased strength, hardness, toughness and wear resistance. PowerCarbide® helps extend drill bit life, leading to fewer bit changes and increased productivity. Sandvik DTH tools reduce energy consumption and improve air efficiency due to their reliability and strength.

Browse 12,815 authentic drilling rig stock photos, high-res images, and pictures, or explore additional oil and gas or fracking stock images to find the right photo at the right size and ...

Drilling Accessories Drilling Tools International offers a full line of surface and downhole accessories related to downhole drilling tools and Bottom Hole Assembly (BHA) components. ...

When you need to drill high quality holes with diameters between 100-254 mm, DTH (Down The Hole) drilling is by far the best and most effective method. DTH drilling can be performed in ...

The Drawworks is one of the most important components of the drilling rig (types of drilling rigs). The unit supplies the hoisting power, the ...
