

Homemade drilling rig manufacturer

How to build a drilling rig?

You can build a drilling rig that works and fits your budget by using the appropriate equipment and supplies. A drill is the operational component of such an installation. You will need a steel pipe with a 100 mm cross section to manufacture it. There is an external screw thread on the pipe's upper end.

Is a DIY Drilling rig a good idea?

A DIY drilling rig can be a useful and effective solution whether you're drilling for soil sample, geothermal heating, or water. Using simple, easily obtainable materials is one of the simplest designs for a do-it-yourself borehole drilling rig.

What kind of drilling rigs does DeepRock manufacture?

DeepRock manufactures a full line of compact, powerful well drilling rigs. Rated for air or mud rotary drilling, our rigs are available with gas or diesel power and in truck, unitized single axle trailer, track or skid mount configurations. Geo-thermal drilling is one of the fastest growing segments of the market.

What is a drill rig for BHA?

Drill rig for BHA - percussion-channel drilling. Represents a frame with a triangular base. The working elements are a rope and a bit or chisel fixed on it. Screw drilling rigs, when using which the soil is removed with the help of an auger, while washing the well with water is not used.

What is a Hydra drill rig?

Hydra-Drills have been the standard by which all portable drilling rigs have been judged since 1962. DeepRock manufactures a full line of Do-it-Yourself Hydra-Drill water well drilling rigs and a new post-hole auger product, The Ground-Hawg. Files for you to view, download and print. us at (855)457-4469.
