

Horizontal drilling rig factories

What is a horizontal directional drilling rig?

A Horizontal Directional Drilling Rig, such as the McCloskey D Series, sets a new standard with the most torque and horsepower in its class and the smallest footprint. It is transportable with a trailer and has a 45 ton capacity. This rig is capable of installing pipe up to 1200 mm (47.2 inches) in diameter and up to 2000 meters (6562.3 feet) long under the surface.

Who makes directional drills?

Manufacturer of custom horizontal directional drills, equipment and tooling. M&D of Hays Company has successfully completed a challenging directional drilling project using the powerful UNI 250x400 rig. The operation began with an 1,800-foot, 12-inch pilot bore completed on the first day. On the second day, crews reamed and pulled...

What is horizontal directional drilling (HDD)?

The Crossing Group's Horizontal Directional Drilling (HDD) services are used for below-ground pipeline and utility installations that require a trenchless solution. HDD is a low disturbance approach for crossing obstacles with minimal environmental impact. The Crossing Group has both Heavy and Light rigs servicing North America.

Who makes rigs?

Mainly these rigs were designed and manufactured by the division drilling technology of the parent company or the subsidiary STREICHER Drilling Technology GmbH. These sectors are also responsible for the maintenance and service.

What is a drilling rig?

In case of offshore connections, outfalls or crossings the drilling teams refer to own drilling rigs with hook loads between 12 and 350 t. Mainly these rigs were designed and manufactured by the division drilling technology of the parent company or the subsidiary STREICHER Drilling Technology GmbH.

How does horizontal directional drilling work?

Horizontal directional drilling involves three main phases: First, we drill a pilot hole along a predetermined path to the exit point. An electric transmitter behind the drill head lets operators steer the drill and make course corrections. Next, we enlarge the pilot hole through successive reaming passes.

The drilling and boring machine industry serves critical infrastructure, mineral excavation and construction requirements across the globe. Companies within ...

HDD Rigs in operation With horizontal directional drilling rigs from Herrenknecht, pipelines and protective pipes can be installed under rivers and infrastructures quickly, cost-effectively and ...

Horizontal drilling rig factories

The Crossing Group's expansive fleet of horizontal directional drilling rigs allow us to serve clients throughout western and northern Canada, as well as California and northern USA.

Featured Equipment Horizontal directional drilling has become contractors and utility companies preferred method of installation for small and large diameter ...

Universal HDD is the world leader in manufacturing custom horizontal directional drills, equipment, and tooling. We offer a wide range of boring equipment like ...

We provide drilling in the Delaware Valley (NJ, PA, DE and MD) and New York area, including Horizontal Directional Drilling, Vertical Drilling, Environmental ...

Explore the essential differences between horizontal directional drilling and vertical drilling to determine which method best suits your project's needs.

The soaring need for infrastructure development and utility installations is driving the world underground where Vermeer can be found at the forefront of the HDD market. By listening ...

Field-tested to demonstrate they can handle the most exacting large-diameter projects, Vermeer horizontal directional drills are equipped with the features ...

Equix has years of experience in all types of drilling. From small HDD rigs to maxi HDD rigs, our pipe crews also support large-diameter and long-distance pullbacks by providing pipe-side ...

DRILLTO is one of the most professional directional drilling rig, horizontal directional machine manufacturers and suppliers in China, specialized in providing high quality custom service.

Our History Over 30 years of activity Horizontal Drilling International, commonly known as HDI, is a construction company established in 1984. It is specialized in the installation of pipelines ...

Discover Cannon's enhanced Horizontal Directional Drilling services, synergized with 50+ years of expertise. Specializing in rock drilling, environmental and ...

Horizontal drilling technology has revolutionized the oil and gas industry, unlocking previously inaccessible reserves and dramatically ...

WELCOME TO OUR COMPANY Founded in 2000, Drillto Trenchless Co., Ltd is composed of a group of experts engaged in trenchless field research in very early stage in China, focusing on ...

Unit Drilling Company was founded in 1963 with three drilling rigs. Today, the company operates 14 onshore

Horizontal drilling rig factories

drilling rigs in various regions throughout the ...

Find your horizontal directional drilling rig easily amongst the 42 products from the leading brands (Hengwang, DITCH WITCH, Herrenknecht, ...) on DirectIndustry, the industry specialist for ...

While driven by Prime Horizontal's presence at the drill site, a significant departure from our conventional service business has been the development of ProData, our purpose built rig ...

The soaring need for infrastructure development and utility installations is driving the world underground where Vermeer can be found at the forefront of the ...

The Horizontal Directional Drilling Rig from Mengyin Believe Machine Factory exemplifies cutting-edge drilling technology, crafted for exceptional precision and efficiency. Designed to operate ...

Horizontal Directional Drilling is an accurate and efficient trenchless solution that utilizes steerable drilling technology. Our Horizontal Directional Drilling rigs allow us to install pipe and product ...

Looking for horizontal directional drilling equipment? Get to know the YG brand HDD drill now! Efficient, economical, factory direct sales.

In the hands of our skilled professionals, our powerful rigs place liquid, gas, cable, and conductor lines and pipe up to 60 inches in diameter to distances of more ...

Jindal drilling and industries limited (jdil) is the first indian company in providing horizontal and directional drilling services in India since 2003. Our focus is on achieving cost and time ...

The China Horizontal Drilling Rig from Mengyin Believe Machine Factory is engineered to meet the demands of modern drilling applications with exceptional precision and efficiency. ...

Thaitan International provides an integrated package of Horizontal Directional Drilling (HDD) services for Clients in the energy & utilities sectors
