

How many drilling rigs are in the permian basin

What happened to drilling activity in the Permian Basin?

Drilling activity declined for the first time in three weeks, while Permian Basin activity fell the lowest in over three years. Oilfield services firm Baker Hughes said Friday that its U.S. rig count fell three rigs to 584 rigs for the week. That's down 21 rigs or 3% from 605 rigs last year.

How many rigs are there in the Permian Basin?

The Permian Basin was down two rigs for 287 rigs at work in the region, the lowest level since December 2021 and 29 rigs or 9% below the 316 rigs counted last year. Eddy County, New Mexico, remained the most active county in the Permian with 51 rigs, unchanged for the week.

Does the Permian region have more oil rigs?

U.S. crude oil and natural gas production has been increasing despite a decline in the number of active rigs since late 2022. Since early 2023, the Permian region has had more active rigs than the rest of the Lower 48 states and has continued to complete hundreds of wells (or prepare them for production) each month.

How many drilling permits are there in the Permian Basin?

Looking at trailing 30-day drilling permits, Enverus said the Permian Basin had 659 permits as of the week ended April 11, up from 648 the previous week and 604 a year earlier. Enverus reported there were 109 frac crews active in the Permian as of the week ended April 11, up from 105 a week earlier but below the 114 counted last year.

Which county has the most rigs in the Permian?

Eddy County, New Mexico, remained the most active county in the Permian with 51 rigs, unchanged for the week. Lea County, New Mexico, remains in second place with 46 rigs, unchanged for the week. Reeves County added two rigs for 28 at work within county lines. Martin County reported 25 rigs, down one for the week.

How many rigs does Oklahoma have?

Oklahoma broke away and took third in the U.S. for its rig count of 45 rigs, holding steady from last week as Louisiana dropped two rigs for its total of 43, records show. The Permian Basin was down two rigs for its total of 313 rigs, read the report, down by 30 rigs from a year ago.
