

# How much does a second-hand excavator and rock drill cost

How much do excavators cost?

While new excavators may cost anywhere from \$20,000 to over \$700,000, used models can offer substantial savings, ranging from \$10,000 to \$500,000 depending on their age and condition. Along with the purchase price, it's essential to consider long-term operating costs such as fuel, maintenance, and insurance.

What determines the price of a used excavator?

**Engine Type:** Diesel engines are the most common in excavators, but hybrid or electric options may be available at a higher cost. **Age and Condition:** For used excavators, age and overall condition play a significant role in determining the price. Newer models with low hours will command a higher price.

Should you buy a used or refurbished excavator?

You'll save a substantial amount of money by opting for a used or refurbished excavator. But, don't expect the machine to be cheap. Generally, a used excavator in good condition can be purchased at a discount of 25% to 50% of the initial purchase price. Most new excavators cost anywhere from \$100,000 to \$500,000.

How much does a 5 year old excavator cost?

Most fall in the range of \$50,000 to \$250,000. A mid-sized, five-year-old excavator with 2,500 hours might run anywhere from \$50,000 to \$100,000, depending on the condition. A mid-sized, two-year-old excavator with the same amount of hours would probably fall in the \$75,000 to \$125,000 range.

Why do excavators cost so much?

**Premium brands** often come with a higher price tag. **Size and Weight:** The size of the excavator directly impacts its cost. Larger models with greater digging capacity tend to be more expensive. **Attachments:** Additional attachments, such as hydraulic hammers, augers, and grapples, can increase the overall cost of the excavator.

How much does a full-size excavator cost?

For a full-size excavator, one that weighs between 30 and 40 tons, be ready to spend from \$150,000 to \$500,000. New excavators have numerous benefits. First, they come with maximum power, top efficiency, and better fuel consumption. However, these machines are pretty expensive to purchase.
