

How to remove the rod from a water well drilling rig

How do you pull a lost well pipe out of a drilled well?

the most effective tools we know about for pulling lost well pipes out of a drilled well are various versions of overshots. Overshots, an "overshoot" type tool, are a bit easier to get over the outside of a well pipe than spear type tools are to get into the well pipe, unless the upper end of the pipe is near the top of the well.

How do you handle a drill rig?

essential Jarring of Hands or Elbows Induction and training on drill rig from Drillers and Senior Offsiders. Wear hand protection when handling rods due to sharp edges. How do you fix a broken well pipe?

With fresh glue inside the mating end of the coupling the retrieving well pipe section is pressed down onto the exposed top of the pipe that is already in the well. Wait for the glue to dry and try pulling out the whole assembly. If the broken-off plastic pipe is below water level, or badly damaged, this approach may have poor chances of success.

How do you retrieve a well pipe?

... Some well pipes can be successfully retrieved by fabricating a flexible pair of metal rings with squared or sharp edges connected and hinged to a rod that is in turn connected to the bottom of a working pipe long enough to reach down to the top of your well pipe in the well.

How does a well driller use a pipe grabber clamp?

You can see the clamp being used to secure the well pipe at the top of the casing while the well driller removes the upper length of well pipe that has just been lifted. Our second photo below illustrates the pipe grabber clamp used to grab the well pipe to keep it from falling back into the well during a pause in lifting to allow other tasks.

Can a well driller grab a hole?

Because it does happen, just about every well driller and most plumbers who work on wells have a collection of grabbing devices, some of them home made, that can be lowered into the well to grapple around and grab on to the upper end of what now sits deep down in the well casing.
