

Italian pneumatic rock drill manufacturer

What is a pneumatic rock drill?

Rock drills are among the most versatile tools used in the drilling and splitting of rock holes. Pneumatic rock drills present themselves as a popular and extremely hard-wearing piece of machinery and are required to be incredibly durable in order to blast apart rock surfaces so they are able to fit into a crusher.

Who makes a rock drill?

Omnia Machinery provides a number of the largest manufacturers of rock drills available, including Atlas Copco, Sandvik and Tamrock to name just a few.

Which Comacchio drilling rigs have hydraulic controls?

The rig can be equipped with servo-assisted proportional hydraulic controls or with radio control. The MC 22 is the flagship drilling rig of the Comacchio range. Introduced in 1997, the MC 22 was the first drilling rig equipped with the innovative Comacchio mast articulation system.

What types of drilling rig equipment does Drilling Co offer?

Our complete portfolio drilling rig equipment includes top drives mud pumps, drawworks, iron roughnecks up to the latest innovative Stinger, for complex drilling rig processes. Drilling Co. specializes in various drilling techniques, including deep drilling and radial drilling, as highlighted in their presentation video.

What makes our drilling rigs a high-quality and versatile product?

The focus on drilling work, the flow of information between customer manufacturer and the use of up-to-date engineering technology have all helped make our drilling rigs a high-quality and versatile product. We offer feasibility studies and carry out turnkey drilling systems based on particular specifications and individual customer requirements.

What factors affect the drilling industry in Italy?

When exploring the drilling industry in Italy, several key considerations come into play. The regulatory landscape is particularly important, as Italy adheres to strict environmental regulations governing drilling activities, which can affect project timelines and costs.
