

Italian water injection rock drill

Who makes drilling rigs for water wells & geothermal?

Drilling rigs for water wells and geothermal. Since 1964 Alfredo Beretta, the founder, made the company Beretta Alfredo S.r.l. in 1964, after having gained high experience in the production of air compressed drilling rigs. Based on customer's feedback on our drilling rigs.

Which Comacchio drilling rigs have hydraulic controls?

The rig can be equipped with servo-assisted proportional hydraulic controls or with radio control. The MC 22 is the flagship drilling rig of the Comacchio range. Introduced in 1997, the MC 22 was the first drilling rig equipped with the innovative Comacchio mast articulation system.

What is a Comacchio mc15 drilling rig?

The drilling rig can be equipped with servo-assisted proportional hydraulic controls or with the innovative Comacchio radio control system. Comacchio MC15 is a compact rig with very high performances for its weight category. Designed for civil engineering works such as micropiles, anchoring, jet grouting and consolidation in general.

High-pressure triplex piston pumps are applied in a variety of well drilling applications to drill using a foam and compressed air process. The high-pressure pump is used to inject a foam mix at ...

We are on hand to offer the customer professional and appropriate assistance as well as to provide the most advanced and fastest drilling techniques ...

WEI srl is a long experienced drilling rig manufacturer for Oil & Gas, Geothermal and Water wells. WEI thanks to its many qualifications and high level technicians carries out on-site surveys, ...

Evolution of Rock Drilling Methods Dawn of the ADSC Age Basic drilling method selection guide for rock using noncoring methods, Littlejohn and Bruce, 1977 (adapted from McGregor 1967).

WHAT IS WATER PRESSURE TESTING? Water pressure testing in rock consists of pressurized injection of water into boreholes drilled into the rock mass and recording the measured water ...

Our company provides professional design and build services for a wide range of tools and drilling pipes. We do offer our customers the possibility to request maintenance and on the stock ...

Massenza, from Italy, are one of the longest established Drilling Rig manufactures in Europe. With over 100 years of experience, they are present all over the ...

The AirROC T35 is a medium-sized Both these machines are suitable for top hammer air drill rig. It features a

Italian water injection rock drill

limestone, aggregate quarries and unique VL 140 pneumatic rock drill. surface ...

When collaring a hole and drilling broken rock, the hole walls tend to collapse causing drill steels to jam or a need to re-drill the hole. This can be avoided by ...

The LS100 is the original small, DIY water well drill rig. It's economically priced and designed specifically for water well drilling in developing nations.

As the drill bit rotates, it applies pressure and cuts into the rock, breaking it into small fragments. As the drilling progresses, cuttings (small ...

CITGO Rock Drill Oils are premium lubricants designed for protection of pneumatic equipment subjected to excessive moisture or water spray. These oils meet the general requirements of ...

Straight Forward drilling The Wassara technology uses water to power the hammer. This makes it the ideal choice for most drilling applications in ground engineering - for drilling in sensitive ...

Massenza, from Italy, are one of the longest established Drilling Rig manufactures in Europe. With over 100 years of experience, they are present all over the world, in more than 40 countries, ...

Epiroc's drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling and ...

water. The second phase is to continue drilling below the surface casing down to the intended injection zone. A second protective casing string is installed from the surface down through ...

Since then, the Company has concentrated on the acquisition of specific know-how for the planning and construction of hydraulic drill rigs, in constant search ...

a. Drilling Fluid Injection: High-pressure air or water is injected down the drill pipe, flushing cuttings to the surface. By injecting compressed ...

What is Rock Fissure Grouting? Rock fissure grouting involves the injection of grout materials into cracks, voids, and fractures in rock formations to enhance their strength, ...

Drilling rigs for water wells and geothermal. Since 1964. Alfredo Beretta, the founder, made the company Beretta Alfredo S.r.l. in 1964, after having gained high experience in the production ...

The WI-100 Water injection system is a gasoline engine powered water injection system designed to inject clean water into a working air stream. This water provides lubrication dust ...

Italian water injection rock drill

Deep injection well for disposal of hazardous, industrial and municipal wastewater; a "Class I" well under USEPA regulations. [1] An injection well is a device that places fluid deep underground ...

Since 1986, Comacchio has specialized in the design and manufacture of hydraulic drill rigs for a wide range of applications in the field of ground engineering, geotechnics, mining exploration, ...

Existing mechanical drilling systems are capable of drilling shallow directional holes but the equipment is heavy, drilling rates are low and costs are high. A comparison of approaches for ...

The aim of a produced water injection operation is to ensure the containment and confinement of the injected water within acceptable injection zones away from any underground source of ...

Sonic drilling uses a resonating drill string to overcome friction and drive a bit to specific depths. Its benefits include faster, cleaner, and safer operations, high-quality core and water samples, ...
