

The in the hole (ITH) drill rig is an essential piece of equipment used in various drilling operations. This article provides a comprehensive look at its applications, technical ...

Compact and powerful long-hole drilling solution The sturdy Simba M4 is a long-hole production drill rig for medium to large-drift mining. It accommodates a range of drill bits, rock drills and in ...

Epiroc is a one of the leading drill rig manufacturers in the world. We offer rock drilling machines and other equipment for many different applications. For ...

Sandvik has launched its first automation-ready underground ITH longhole drill for production drilling, service support and mechanised slot raising.

DU421-C is an ITH drill unitized with an on-board and complete with a FOPS/ROPS cabin. This drill on a mobile center articulated carrier designed mobility in underground mines with ramp ...

Sandvik DU411 is a center-articulated, carrier-mounted in-the-hole (ITH) drill rig that is ideal for highly accurate production drilling, as well as drilling service ...

Sandvik DU211-T is a track-mounted, in-the-hole (ITH) drill rig with a minimum width of 1.2 meters (48 inches). This drill rig for underground drilling is ...

Sandvik in-the-hole (ITH) longhole drills are capable of drilling 89-216 mm holes up to 100 meters in length using 3" to 8" ITH hammers in mechanized and automated underground ...

Explore the different types of drilling rigs from the oil and gas industry and understand how each one is built for specific depths, locations, ...

Sandvik DU311 is a center-articulated, carrier-mounted in-the-hole (ITH) drill rig designed for high mobility and utility in underground mining. This compact ...

Sandvik DU411 is a center-articulated, carrier-mounted in-the-hole (ITH) drill that provides highly accurate drilling and enhances profitability with the lowest cost ...

**TECHNICAL SPECIFICATION** Sandvik DU411 is a highly versatile and compact ITH longhole drill fitted with an onboard booster and designed for underground mining in 4 x 4 m or larger ...

**TECHNICAL SPECIFICATION** Sandvik DU311-TK is a versatile and compact ITH longhole drill fitted with

## Ith drill rig

an onboard booster and designed for underground mining in 4 x 4 m or larger ...

The Borterra RaisePro-48T is a multi-purpose ITH-Raise Drill that sets a new standard in efficiency, versatility and innovation. The versatile track-mounted In-The-Hole (ITH) drill was ...

Production drilling rig with pneumatic in the hole hammer, ITH, for deep straight holes. The Rig Control System (RCS) provides efficient and high precision long hole drilling, and also ...

403-8 R10A--03/05/2010 UNDERGROUND DRILLS ARIES Technical Specification Description: The Aries drill is an ITH drill unitized with an on ...

Sandvik has launched its first automation-ready underground in-the-hole (ITH) longhole drill for production drilling, service support and ...

Introduction The in the hole (ITH) drill rig is an essential piece of equipment used in various drilling operations. This article provides a comprehensive look at its applications, ...

What is an In The Hole Drill Rig? An In The Hole Drill Rig, often referred to simply as an ITH drill rig, is a specialized piece of equipment that is utilized primarily in the mining ...

Sandvik DU311 is a fully mechanized, center-articulated, in-the-hole (ITH) drill designed for high mobility and utility in underground mining. It is a compact yet ...

Equipment MDU own and operate a modern fleet of heavy duty Sandvik electric drill rigs. The Sandvik drill rigs are versatile units and are capable of drilling 100mm diameter blast holes and ...

The Swastik ITH Booster is a robust drilling machine designed for heavy-duty operations in mining, construction, and deep drilling projects. It features versatile capabilities for drilling ...
