

Jiaxing screw air compressor operating specifications

What are the specifications for oil-injected rotary screw air compressors?

The document provides specifications for various models of oil-injected rotary screw air compressors, including: 1) Capacity and pressure ranges from 0.5-28.5 m³/min and 0.7-1.3 MPa depending on the model. 2) Motor power ranges from 5.5-220 kW. 3) Noise levels are generally between 65-75 dB (A).

What is a screw air compressor manual?

screw-air-compressor-manual (1) - Free download as PDF File (.pdf), Text File (.txt) or read online for free. The Screw Compressor Manual provides comprehensive guidelines on the operation, maintenance, and safety protocols for screw-type air compressors, emphasizing their efficient design and application in various industries.

How does a compressor lubrication system work?

decreases the noise made by the high speed of the compressor. The lubricant weight is about 5-10 times that of air. The design provides for enough inlet air, and the air is modulated by an inlet valve. As the rotors rotate they create a vacuum which sucks air in through the inlet valve.

Which rotary screw compressors are best for small compressed air systems?

KAESER COMPRESSORS' SX, SM, and SK series of rotary screw compressors are the perfect solution for smaller compressed air systems. Not only do these compressors deliver more compressed air for sustainable energy savings, they also combine ease of use with exceptional reliability and simple maintenance.

What is the pressure limit for a screw compressor?

CAGI data sheets for our screw compressor units can be found at *SX 3 pressure limited to 160 psig. Performance rated in accordance with CAGI/ISO 1217 test code. Weights may vary slightly depending on air end model. Per ISO 2151 using ISO 9614-2. Note: Other pressures available from 80 to 217 psig.

How much power does a screw air compressor have?

Nascent Machinery Company is manufacturing the screw air compressor models with power ranging from 10 hp to 500 hp (7.5 kW to 400 kW). These direct driven compressors have standard full load pressure rating from 110 psi, 125 psi, 150 psi and 175 psi, 220 psi (0.8 Mpa, 1.0 Mpa, 1.3 Mpa, and 1.6 Mpa). Thank you for choosing our Screw Compressor.
