

A KLEMM KR 807-7G Drilling Rig worked discretely in the shadows of a shoring wall on a busy jobsite traversed by heavy equipment in the budding metropolis of Tysons ...

Almost anything is possible Drilling systems In the last five decades, KLEMM Bohrtechnik has decisively contributed to the development of the drilling systems that are currently available on ...

KLEMM has introduced the KR 800-3G, the latest drill rig in its compact product range. With an operating weight of 10 tons and an on-board diesel engine, the KR 800-3G is ...

Drilling Rig The drilling rig KR 807-7G represents the consequent further development in the KR 807 model series that conforms to the exhaust emission standards EEC 4 / EPA TIER 4f. With ...

The powerful drilling rig for vertical applications, e.g. in-situ concret piles, H-beam pre-drilling, high-pressure injections and similar tasks in the special foundation ...

The Klemm 702 is a versatile restricted access drilling and CFA piling rig, capable of operating in tunnels and basements. Quiet, compact and powerful, the Klemm 702 can be used at a ...

KLEMM Bohrtechnik presented several of its compact anchor and geothermal drilling rigs at bauma 2025 - including two new developments.

The drilling rig type KR 806-3GS is currently the most advanced version from the KR 806 range. Originally designed as an anchor drilling rig for double-head ...

The modularity of the drill mast allows the adaption of a variety of options which makes the drill rig universally applicable, e.g. for anchoring, micro piling, jet grouting and geothermal drilling. ...

The KLEMM line of rigs are ideal for a wide range of drilling and ground improvement applications including micropiles, jet grouting, tieback ...

The rig's hydraulic operations, encompassing drilling, setup, and tramming, are managed by CAN-bus controlled load sensing control valves. Operation of the KR7093G is facilitated through a ...

The KLEMM drilling rig is a formidable force in specialized foundation engineering, offering unparalleled versatility for vertical drilling both indoors and outdoors. This rig is compatible with ...

KLEMM Micropile drilling machines KLEMM Bohrtechnik develops and manufactures drilling rigs and

Klem drill rig

drilling equipment in the field of special foundations. As proof of the high degree of ...

The large universal and anchor drilling rig in two power classes for a variety of applications in specialised foundation engineering and other fields of application.

As power unit for the drill rig, two different diesel power packs and one electric power pack are available. The power packs offer a modern high pressure hydraulic system for the operation of ...

Versatile drilling rig concept The drilling rig can be used in a range of ways, for example for micropiles and mini piles, GEWI piles, for underpinnings, jet ...

Klem drill rig
