

Klemm 806 drill rig specifications

Klemm 806-3D The drilling rig KR 806-3D is the next development of the KR 806 series. With 147 kW engine power and a two circuit load sensing double pump system, the rig is designed for ...

The Klemm 805-2 is similar to our other Klemm 806 drill rigs, except that it is more compact, lighter in weight and has simpler kinematics. This rig can be setup with either a dual rotary or ...

Our configuration is KR 806-3D with KD-1011 and KH-22, allowing operator to drill through medium to hard rock with auger and particular drilling bits whereby piling with counter rotation ...

The drilling rig type KR 806-3GS is currently the most advanced version from the KR 806 range. Originally designed as an anchor drilling rig for double-head drilling systems, "the 806" is now ...

Integrated battery pack for off-grid operation and to cover load peaks with 1x 125 A CEE power supply. Stroke limitation and position indication of the carriage, ...

The KR 806-3G can be equipped with drill masts either with feed gear or cylinder feed systems with the option of fitting lattice mast extensions. The modularity of the drill mast allows the ...

Klemm A drill rig from KLEMM is a guarantee for operating reliability and long-term cost efficiency Our assortment KLEMM KR 807-7G The large and especially stable universal and anchor ...

Find out how much to pay for a Klemm KR 806-3. Price and specification data for the based on data from the world's largest marketplace for used machinery.

The drill rig is designed for the high performance double head units with hydraulic drifter and rotary head. Our configuration is KR 806-3D with KD-1011 and KH-22, allowing operator to drill ...

The KR 806-3E zero emission drilling rig is the latest member of the World renowned KLEMM KR 806 family, recognized for its advanced technology and ...

Best for micropiling, anchoring, and underpinning, the used 2008 Klemm KR806-5 crawler drilling rig features a 6570 mm feed length and 100 kN impact rate. ...

The drilling rig KR 806-5G is the largest unit within the KR 806-series. This rig is equipped with a Diesel engine rated at 180 kW power output and a tandem load sensing main hydraulic pump ...

The drilling rig KR 806-5G is the largest unit within the KR 806-series. This rig is equipped with a Diesel

Klemm 806 drill rig specifications

engine rated at 180 kW power output and a tandem load sensing main ...

The drilling rig KR 806-3D is the next development of the KR 806 series. With 147 kW engine power and a two circuit load sensing double pump system, the rig is designed for high ...

Hydraulic System: Features a two-circuit load-sensing double pump system, with a maximum operating pressure of 320 bar. Drilling Speed: Offers a feed rate of 6.0 / 12.0 m/min, with fast ...

High performance With an engine power of up to 245 kW, the crawler drilling rig KR 807-7G or the KR 807-7GP variant is the most powerful drilling rig of ...

The anchor drilling rig with on-board magazine and manipulator MAG 6.1 for double rods. With the drive train of the KR 806-3GS - developed for heavy ...

Find out how much to pay for a Klemm KR 806. Price and specification data for the based on data from the world's largest marketplace for used machinery.

Description Used Klemm KR 806-3G Micro Piling Rig/Geotechnical Drill Rig for sale. 2,013 Hours Double rotary head Hydraulic system- operating max pressure 350 bar

Klemm For high performance focussed drilling solutions, look no further than Klemm. Klemm offer a selection of rigs and drilling equipment for the foundation industry, with reliability and ...

Drilling Rig The KR 806-3E zero emission drilling rig is the latest member of the World renowned KLEMM KR 806 family, recognized for its advanced technology and maximal performance. ...

KLEMM KR 806-3F Hydraulic Drill Rig KLEMM Hydraulic drill rig KR 806-3F year 2015 about 3.200 working hours Deutz diesel engine TCD2012 L6 2V, 160kW Power, Tier 4i Drill mast ...
