

Klemm drilling rig factory

What is a Klemm drill rig?

A drill rig from KLEMM is a guarantee for operating reliability and long-term cost efficiency. The large and especially stable universal and anchor drilling rig is available in two power classes. For a variety of applications in specialised foundation engineering and other fields of application.

How many types of drilling rigs does Klemm Bohrtechnik offer?

Universal or specific: In each case, KLEMM Bohrtechnik supplies the most suitable drilling rig in terms of weight, size, performance, field of application and equipment. More than 25 drilling rig types provide the basis for maximum adaptation and individualisation. KLEMM Product Range

Who is Klemm?

Klemm is a world leader in the development and manufacturing of hydraulic anchor drilling rigs, mini and micro pile drilling rigs, and drilling accessories for all types of special foundation construction.

Who is Klemm Bohrtechnik?

KLEMM Bohrtechnik is one of the international leading specialists in the development of especially high-grade, powerful and mobile drilling equipment with a total weight of up to 32 t. What's special: technological excellence that makes KLEMM drilling rigs an unstoppable DYNAMIC POWER.

What makes Klemm unique as a drill rig-manufacturer?

One feature that makes KLEMM unique as a drill rig-manufacturer is that KLEMM develop and manufacture their own drifters and rotary heads. This makes it easier for KLEMM to adapt to new components, development and demands. KLEMM is known for their robust, innovative designs and holds the leading edge in technology and methodology development.

What is a Klemm KR 806-3e drilling rig?

This drilling rig is a further development of KLEMM's field-proven electro-hydraulic drilling rig - the KR 806-3E. It has more engine power (180 kW), greater battery capacity (160 kWh) and a simplified electrical system.

The offered KLEMM drill rig KR 805-3G is equipped with a single hydraulic drifter of type KD 1624 for various drilling applications, among others micro piling, anchoring, soil ...

The KR 800-3G is a powerful, compact drilling rig with a total weight of 9.5 t for a wide range of drilling tasks. The 100 kW CAT diesel engine complies with the ...

Small and mobile drilling rig with universal kinematics. Separate diesel or electric power packs available. Especially for confined spaces.

Klemm drilling rig factory

The KR 909-2 is a powerful yet simple structured drilling rig. With tried and tested KLEMM additional components, it can be adapted for a variety of tasks quickly ...

BON VOYAGE! KLEMM drilling rig KR 805-3GW leaving our factory on the way to one of our customers in France. There it will soon be used for geothermal...

Drill Rig KR 702-2 with power pack on crawler track The KR 702-2 is the machine of choice amongst KLEMM drill rigs where jobsites with confined conditions is concerned. Particular ...

JK supplies Hydraulic DTH Drill Rig, Crawler Mounted, Tophammer Drilling Rigs, Truck Mounted Drilling Rig. JK Drilling is certified to ISO9001, ISO14001 and ...

The KR 909-3G is a compact and powerful machine which can be easily adapted to a variety of tasks with reliable KLEMM additional components. It complies ...

Compact and powerful The KR 801 defines its own class of especially compact and at the same time universally usable drilling rigs. With a 2200 mm wide ...

JK supplies Hydraulic DTH Drill Rig, Crawler Mounted, Tophammer Drilling Rigs, Truck Mounted Drilling Rig. JK Drilling is certified to ISO9001, ISO14001 and OHSAS18001.

The zero-emission drilling rig. With easy connection to standard electrical infrastructure on construction sites. Off-grid operation with battery is possible.

Versatile drilling rig concept The drilling rig can be used in a range of ways, for example for micropiles and mini piles, GEWI piles, for underpinnings, jet ...

The large universal and anchor drilling rig in two power classes for a variety of applications in specialised foundation engineering and other fields of application.

The anchor drilling rig with on-board magazine and manipulator MAG 6.1 for double rods. With the drive train of the KR 806-3GS - developed for heavy ...

The most powerful drilling rig from KLEMM for near-surface and medium-depth geothermal energy. With 250 kW engine power, 9 separate hydraulic circuits, 220 kN mast retraction ...

The KR 909-2 is a powerful yet simple structured drilling rig. With tried and tested KLEMM additional components, it can be adapted for a variety of tasks quickly and easily. It is ...

BON VOYAGE! KLEMM drilling rig KR 805-3GW leaving our factory on the way to one of our customers

Klemm drilling rig factory

in France. There it will soon be used for geothermal drillings.

The compact, electric vertical drilling rig for specialised foundation engineering in extremely tight spaces. With a telescopic drill mast and laterally movable upper carriage for optimum space ...

KLEMM Bohrtechnik presented several of its compact anchor and geothermal drilling rigs at bauma 2025 - including two new developments.

Klemm drill rigs are manufactured with the state-of-the-art drilling technology to differentiate them from other forms of machines. They have versatile elements to handle different types of ...

The drilling rig is prepared for guidance and discharge of drill backflow and cuttings, for handling of the drill rod and the casing, for the handling of probes ...

Klemm drill rigs are multi purpose mobile drill rigs for mini piling and geothermal drilling. Klemm Bohrtechnik are based in Germany, and are specialists in manufacturing mini piling machinery, ...

KLEMM Bohrtechnik is represented globally via dealers and service partners. The list below shows where we are present - simply select the continent, scroll through the list of countries ...

The drilling rig type KR 806-3GS is currently the most advanced version from the KR 806 range. Originally designed as an anchor drilling rig for double-head ...
