

Large diameter drill rigs

Large diameter shaft drilling is a critical technique in construction and engineering for creating deep, robust foundations and structural supports. This method ...

Discover our wide range of surface drilling equipment within mining, quarrying, construction, civil engineering and the dimension stone industry.

What are large-diameter piling rigs? Large-diameter piling rigs (LDP rigs) are designed to drill shafts where the placement of rebar and ...

Drill rig for sale range in size from the small, limited access drilling rigs to large core drill rigs and big performance sonic drill rigs.

Large drilling diameter bits up to 8.5 m (27 ft. 11 in.) Rock bits with stinger Drill bits with integrated underreamer Pneumatic underreamer Hydraulic underreamer with rotor and separate power ...

Large Diameter Drilling (LDD) is a company that manufactures piling equipment. Its products include drill rigs, lifting equipment, hammers, subsea piling templates, tools, etc. The company ...

Our pile top drill rigs (PBA) provide the most efficient solution for foundation drilling in mixed ground, boulders and hard rock. Six different machine models ...

OVER 35 YEARS EXPERIENCE IN OVERWATER DRILLING Our fleet of pile top drill rigs We own and operate the largest known fleet of specialist pile top rigs within the market. All are fully ...

HMH Wirth Pile Top Drilling (PBA) - Large Diameter Drilling Units provide the most efficient solution for foundation drilling in mixed ground, boulders and hard rock. Various models cover ...

HDD Drill Rigs Horizontal Directional Drilling (HDD) drill rigs come in various shapes and sizes. The small drill rigs are usually capable of pull forces ranging from 5,000 - 100,000 ...

CH 450 The CH 450 is the first Comacchio drilling rig for large diameter drilling. The CH 450 is the ideal solution for job sites that require fast operating times. The machine is totally self-erecting, ...

DTH hammers are powerful percussive drilling tools that use compressed air to drive a piston, delivering direct impact energy to the DTH bit for efficient rock breaking. When paired with ...

Choosing the right directional drill is critical to helping your team maximize performance on large-diameter,

Large diameter drill rigs

long-distance bores. Here's what to ...

The Bauer BG55 is a powerful, advanced vertical drill rig designed for heavy-duty geotechnical and foundation work. It features high torque output, exceptional ...

Drilling Equipment Done Right Among the many drilling services our company has to offer, we also have the capabilities and experience to drill large ...

A complete range of accessories for large diameter drill rigs, including kelly bars, CFA augers, drilling equipment and tools, designed to support the full spectrum of large diameter drilling ...

Maxi rigs are used for major infrastructure projects like installing large-diameter pipelines, river crossings, and utility lines under highways and ...

While large-diameter DTH hammer deep-hole drilling technology offers numerous advantages, it still encounters many challenges during ...

Hydracrat has successfully completed a significant number of large diameter boreholes and deep drilling for the water and energy markets over several decades. Our specialist fleet of drilling ...

It is specifically designed to drill large diameter shafts up to 12 feet as well as get over casing. Standard drill rig is mounted on a crawler type undercarriage.

How to Select Foundation Drilling Rig Selecting the right foundation drilling rig can be daunting. They're expensive - so you want to get it right the first time. You ...
