

Latest long arm down-the-hole drill rig

ZEGA TOP-HAMMER AND DOWN-THE-HOLE DRILL RIGS Introducing the ZEGA Drill Rig, the pinnacle of efficiency and precision in drilling technology. ...

KH712D open-pit down-the-hole drill adopts new hydraulic technology and is a powerful assistant for rock drilling in open-pit mining, road construction, water conservancy, power stations and ...

Following the launch of the Sandvik DL422iE battery electric drill in 2021, Sandvik has now introduced its diesel counterpart, designed for ...

DTH rig machine, down-the-hole drilling rig, is a powerhouse drilling tool designed for deep, accurate, and efficient boring in demanding environments. Ideal for mining exploration, quarry ...

The critical parameters affecting the sustainable implementation of long hole drilling in stoping applications for platinum mines are improved safety and higher production rates compared to ...

DL4 Production Drilling Rig It is specifically for long hole mining applications, with capability to drill holes with diameters 64-89mm and can achieve a maximum ...

We design and manufacture exploration drilling rigs for clients in New Zealand and around the world. Our high-level design, 3D modelling, simulation, ...

The DTH drilling rig (down-the-hole) is a highly efficient rock drilling equipment used in open-pit mines, stonework projects, road construction, and other scenarios. It is also called a shallow ...

Sandvik DL421 is a versatile longhole drill rig engineered for large-scale production drilling in underground mines. It is designed for vertical and ...

Production Master 2.3M is a self-propelled production drill rig designed for drilling long holes in small to medium-size galleries. This underground long-hole ...

The most productive drill available for rotary tricone and down the hole drilling of 171mm to 270mm (6-3/4" to 10-5/8 ") holes with up to 59 ft (18 m) clean hole ...

XD-420T Crawler Mounted DTH Drilling Rig Brief Introduction The XD-420T series crawler open-pit down-the-hole drill rig is a new type of down-the-hole drill developed to...

Sandvik DL432i is a fully mechanized top hammer longhole drill designed for underground mass mining in

Latest long arm down-the-hole drill rig

3.4 m x 3.4 meter or larger production drifts. It has a high-drilling capacity and offers ...

With a 97,000 lb (43,998 kg)* bit load capacity, the durable Pit Viper 271 XC is designed for adaptability - so it easily fits into any drilling operation. The new Pit Viper 271 XC is one of the ...

The crawler-mounted drilling rig is particularly designed for drilling big holes, such as blastholes and photovoltaic holes. Equipped with an enhanced gearbox ...

Epiroc has released its new long-hole production drill rig for small to medium-sized drifts, Simba SM60 S. With a new carousel design and ...

Epiroc's Simba long-hole drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground ...

The KG920A/B/D, KGH4 medium pressure crawler drilling rig is an updated version of KY125 series rock drilling machine. The pneumatic system, ...

Down the hole drills, also known as DTH drills, are specialized equipment designed to bore holes into hard rock formations and other challenging ...

DTH drilling, also known as Down-the-Hole drilling, is a method used to drill boreholes into the earth's surface. This technique involves a hammer that is ...

Robust design is built to last and adds safety to daily work. An accurate control system with simple icon displays makes drilling easy. Clear gauges for drilling ...

Long Hole Drilling with Top Hammer can get to depths of up to 40m with a 127mm hole width. Robit provides both drill bits and rods for top hammer drilling.

The successful delivery of Xiangchi Machinery's spiral arm down-the-hole drilling rig once again proves a series of achievements made by Xiangchi Machinery's development ...

The integrated down the hole drill rig is a self-propelled rock drilling equipment that incorporates the power system (usually a diesel engine and an air compressor), drill arm, drilling ...

The ATD100 Air Track Drill is a self-propelled pneumatic crawler drill that can be used for both DTH and drifter drilling. It maintains a simple and lightweight design that is easy to operate ...

The integrated down the hole drill rig is a self-propelled rock drilling equipment that incorporates the power system (usually a diesel engine and an air ...

Latest long arm down-the-hole drill rig
