How big is the assembled rig?

The assembled rig is approximately 10.5 inches wide, 15.5 inches long and 15 inches tall. 1052 pieces. Approximately 1:250 scale. The instructions are a high quality PDF file that includes 121 steps on 65 pages. Already have some of the parts? Use the Build this MOC page to only show the parts you are missing.

How does a jack-up rig work?

This rig is of the jack-up type, meaning it can lower its 3 legs onto the sea bottom and then travel upward until the hull is well above sea level. The drill floor and the derrick are placed on top of a cantilever, which can be moved aft so that the drill floor will be away from the hull, above the sea.
