

The control system - developed and manufactured by Liebherr - is designed to withstand extreme temperatures and the many heavy-duty construction tasks for which this machine ...

The Liebherr LB 36 drilling rig is designed for optimized drilling applications. All common drilling methods can be executed, e.g. Kelly drilling, continuous flight ...

State-of-the-art drives The series of Liebherr rotary drilling rigs is equipped with powerful diesel engines especially designed for heavy-duty construction tasks.

Operating weight Total weight with 900 mm 3-web grousers 115.3 t Total weight with 1000 mm 3-web grousers 116.0 t The operating weight includes the basic machine LB 45 with rotary and ...

The all-round piling and drilling rig LRB 18 owes its name to the sledge's travel distance of 18 m. It convinces with compact design and low operating weight, which results in low ground ...

Liebherr LB 36-410, LRB 155, LB 28, LB 24, LB 16, LRB 125, and LRB 255 drilling rigs for sale. Find drill rigs, oil and gas equipment on Machinio.

Liebherr rotary drilling rigs were designed for heavy-duty construction tasks in the deep foundation industry and offer a wide range of possible applications. Kelly bars and rotary ...

The new generation of Liebherr drilling rigs (LB series): higher torque, a wider range of applications and useful assistance systems for improved operator ...

Sun Machinery is the place for contractors to buy and sell rigs and vessels and related equipment. Our database contains thousands of used equipment for sale, which are presented and ...

The successful heavy-duty drilling rig LB 36-410 is used for the production of bored piles. Various methods such as Kelly drilling, continuous flight auger ...

Liebherr piling and drilling rigs cover a very extensive range of applications: piling, vibrating, pressing and drilling. With the appropriate attachment tool, all deep foundation methods can ...

The LB 55 drilling rig is the most powerful representative of the well-known LB series from Liebherr. Besides the common Kelly drilling other methods like ...

The Liebherr LB 44 is the latest development in Liebherr's range of special deep foundation equipment. This

Liebherr rotary drilling rigs

rig can easily be transported despite its large dimensions and offers a high level of ...

The LB 35.1 is the successor of the proven rotary drilling rig LB 28-320. Drilling with Kelly equipment, double rotary head and continuous flight auger are common methods.

Liebherr piling and drilling rigs cover a very extensive range of applications: piling, vibrating, pressing and drilling. With the appropriate attachment tool, all deep ...

The compact drilling rig LB 20-230 can be used for different drilling methods such as the classic Kelly drilling with or without casing oscillator, continuous flight ...

Drilling assistant for single-pass method The rope crowd system, rotary drive and the amount of flowing concrete are optimally matched during drilling and subsequent extraction.

Deep, deeper, LB 45.1 The further development of the proven LB 45 masters all drilling methods such as Kelly drilling, continuous flight auger drilling, full displacement drilling, double rotary ...

The LB 16 unplugged is the first battery-powered drilling rig in the world. With the electro-hydraulic version, Liebherr presents the deep foundation machine with alternative drive concept. The ...

Efficient in every application The conception of the Liebherr rotary drilling rigs (LB series) is based on Liebherr's many years of experience with deep foundation applications and considers even ...

The new generation of Liebherr drilling rigs (LB series): higher torque, a wider range of applications and useful assistance systems for improved operator comfort and increased ...

Double rotary drilling combines continuous flight auger drilling with a continuous casing. Casing and auger (inside the casing) are simultaneously installed and ...

Double rotary drilling combines continuous flight auger drilling with a continuous casing. Casing and auger (inside the casing) are simultaneously installed and extracted. Double rotary drilling ...

Liebherr rotary drilling rigs LB series for Kelly drilling, continuous flight auger drilling, drilling with partial or full displacement tools, double

The proven LB 28-320 drilling rig from Liebherr is used for the foundation of piles. Drilling with Kelly equipment, double rotary head and continuous flight auger ...

With the LB 45, Liebherr presents its successor to the proven drilling rig LB 36-410. Its torque increases by 10% to 450 kNm. Various methods such as Kelly ...

Liebherr rotary drilling rigs

The operating weight includes the basic machine LB 28-320 (with rotary and Kelly bar MD 28/4/54), extension of drilling axis (1300 mm), leader extension (1120 mm) and 17.2 t ...

Detailed 3d model of Liebherr rotary drilling rig. Model is high resolution and perfect for close-up detailed renders. Two max files included: Standard and V-Ray materials. Previews rendered ...

The Liebherr LB 36 drilling rig is designed for optimized drilling applications. All common drilling methods can be executed, e.g. Kelly drilling, continuous flight auger drilling, drilling with partial ...
