

Lightning drilling rig

Offshore drilling companies are not immune to the potentially devastating effects of lightning events. In fact, they may be at an even bigger risk than first thought.

A rocket launches into the sky, leaving a trail of fire and smoke. The rocket is silhouetted against the setting sun, which casts a warm glow on the clouds ...

Victims of lightning strikes should be administered CPR immediately. Rig equipment can be protected from lightning strikes by grounding the equipment. Rig equipment ...

LED Drilling Rig Lights The drilling rig lights we carry are trusted by electrical contractors, government agencies, oil and gas engineers, and industrial safety ...

The Lightning Rig offers the solid construction, safety, drilling efficiency, and structural reliability of a conventional land rig in a quick set up land rig design. ...

About the author Avram Saunders is president and CEO of Lightning Eliminators & Consultants, a 41-year-old company that specializes in lightning protection, prevention products, and risk ...

Zanskar Geothermal & Minerals has drilled a highly productive well at Lightning Dock geothermal field, New Mexico, validating the thesis of ...

Panax Geothermal announces mobilization of the Weatherford Lightning Rig # 828 to the Salamander-1 drilling site at Penola in the south east of South Australia.

Bob Callender, Fine Art Oil And Gas Photography, Oil And Gas Photography, Drilling Rig Pictures, oilfield photos, oilfield photography, drilling rig photos, drilling rig photography, ...

THE CHALLENGE SIFCO Applied Surface Concepts (ASC), worked together with the world leader in oilfield products and services, National Oilwell Varco (NOV) to repair critical damage ...

To address the risk of lightning to offshore oil and gas facilities, LEC has been working with drilling rig contractor Transocean Ltd., with whom LEC connected through Transocean's operations in ...

Other rigs and platforms may need a no-strike system to provide security against lightning strikes on the helipad, drill derrick or jack-up legs. Lightning Protection Systems, ...

In the high-stakes environment of the oil industry, where safety, reliability, and efficiency are paramount, the

Lightning drilling rig

importance of lightning protection ...

Lightning Oilfield Service, Inc. is one of the fastest developing, most reliable transportation providers in the oil & gas industry. We strive to provide quality ...

Exploration for oil and gas is leaning more on science and automation every day. Rigs are drilling deeper, platforms are stationed farther ...

Oil facilities are equipped with intricate and expensive infrastructure, including drilling rigs, storage tanks, pipelines, and refineries. A ...

With SLS's oil and gas lightning protection solutions, you can minimize downtime, protect valuable equipment, ensure the safety of your workforce, and maintain ...

Beware of lightning Granfors emphasized that lightning and drill rigs don't mix. When lightning is present, adopting the "6-30-30" measure is a ...

A rocket launches into the sky, leaving a trail of fire and smoke. The rocket is silhouetted against the setting sun, which casts a warm glow on the clouds and the water below. The scene is ...

I work on a jack-up drilling rig. I have been instructed to run a 4/0 cable to the top of the derrick and fastened to same (the derrick is about 175ft. high) and the other end ...

Other rigs and platforms may need a no-strike system to provide security against lightning strikes on the helipad, drill derrick or jack-up legs. No matter the level of protection needed, Lightning ...

Surge Protection Lightning and other transients can easily damage or destroy sensitive electronics, causing expensive downtime and repairs. For Rigs and Platforms surge ...

We are dedicated to providing the best lightning protection system for any given offshore application, each tailored to suit the others in the system.

Are you interested in the ADLER Drill rig B 25 Lightning conductor? Please fill in the form and let us or one of our sales partners provide you with more information!

Electrify your workday with this striking notebook. Featuring a powerful image of a drilling rig lit up by a lightning storm, Rig Strike is made for roughnecks, rig hands, and anyone ...

Lighting a Drilling Site Effectively Increases Worksite Safety & Productivity When mounting optically-controlled ZLM floodlights at the top of the drilling rig, we deliver 360° coverage. ...

Lightning drilling rig

Running the energy down the rig is probably the best thing to do. Adding lightning rods to the rig would be good to pull the lightning out of the air before it has a chance to strike ...

Even though lightning is less likely to strike over the open and deep water, the risks affecting a rig or platform are still great - and growing. Offshore rigs and platforms are thought of as ...

Lighting a Drilling Site Effectively Increases Worksite Safety & Productivity When mounting optically-controlled ZLM floodlights at the top of the drilling rig, we ...

Our world class service center for drilling rigs and other drilling equipment in Dubai Investment Park was opened in 2020 and ALBARIQ has a total of 7 service centers throughout UAE, ...

Zanskar has now repowered the Lightning Dock geothermal power plant in New Mexico, with the full 15-MW capacity delivered by a newly drilled ...

This paper discusses the occurrence and characteristics of lightning-related phenomenon, and the damage which it may cause to commonly used oilfield equipment such as tank batteries, ...
