

Longhole This method consists in a variety of chambers where the mine blocks are generally cut by sub-levels from which long holes are drilled in plans that are generally parallel. These ...

Long-Hole Drills For underground production drilling Mine Master offers a range of long hole drilling rigs in configurations suitable for the required work in mines.

For large-scale methods such as stoping, caving with long hole drilling, both upward blind blasting and between sublevel blasting, are applied. Here, parameters such as rock conditions, backfill ...

exploration in tunnels. It offers fast transition from face drilling to long hole drilling, fast penetration and considerable savings in cement consumption. The system is particularly suitable for ...

Sandvik DL432i is a fully mechanized top hammer longhole drill designed for underground mass mining in 3.4 m x 3.4 meter or larger production drifts. It ...

Experience advanced longhole drilling with the Sandvik DL422i rig - a drill engineered for precision and productivity in underground mining operations.

Production Master 2.3 is a self-propelled long-hole drilling rig designed for drilling parallel upholes and downholes as well as fans and rings in vertical or inclined ...

DL long-hole drilling rigs are a kind of mining hydraulic drilling rig in underground mines project. Our production drill rig is mainly used for drilling blast holes of ...

The idea of drilling a few long holes parallel to the face rather than a large number of short blast holes perpendicular to the face was an attractive option to mechanize narrow reef mining. This ...

DL4 production drilling rig is developed for long hole mining can drill holes with diameter from 64mm to 89mm and maximum 41m deep. The suitable cross-sections (width x height) is from ...

Achieving precise results in deep hole drilling, especially with long drills, is crucial for the quality and functionality of the final products. In this ...

Long hole rods are available in male-male and male-female options. Drilling with the minimum possible hole deviation is important for more consistent ...

Long Hole Drilling Bazooka drills, VAG and VEG long hole drills with bar and arm or tri-pod stands. Fully

Long hole drill rig

supported by Canyon equipment with parts stock ready. Rebuild and repair ...

Drilling a very long hole presents a unique set of engineering and practical challenges, far exceeding the complexity of typical drilling operations. From oil and gas ...

Epiroc's long-hole drilling rigs are used for production drilling in underground mining applications. With a variety of feed lengths, positioning configurations, ...

Learn how to drill long holes through wood with precision and ease! Discover expert tips on choosing the right drill bit, setting depth, securing the wood, adjusting drill ...

Long hole drilling is a crucial technique that enhances both productivity and safety, making it essential for effective resource extraction. Mine Master's production rigs are ...

Epiroc's Simba long-hole drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground ...

Explore electric longhole drilling with the Sandvik DL422iE rig - a state-of-the-art, electric drill combining efficiency and sustainability for underground mining.

Learn the secrets of drilling flawless long holes in wood! From marking your points to choosing the right drill bit, this article covers all the aspects. Stay safe with proper gear and ...

Drilling long holes can be tricky because if the drill bit wanders, you will come up in the wrong place. So try this tip to help you become more accurate.

Drill deep holes and access tight spaces with our extra-long drill bits. Ideal for construction, electrical, and plumbing work.

Description: Siton DL2 production underground drill rig with boom-mounted drill unit is designed for work in underground mining drifts with cross sections of 3x3-4.5x4.3m. Capable drilling ...

Precise production drills Simba long-hole drilling rigs offer a variety of feed lengths, positioning configurations and rock drills built for quick setup and ...

Long-Hole Drills For underground production drilling Mine Master offers a range of long hole drilling rigs in configurations suitable for the required work in mines. To adapt to specific ...

Long hole drill rig
