

Looking for a split open-pit down-the-hole drill driver

The split down-the-hole drill rig, with its split design, is convenient and fast to move, can quickly respond to drilling needs in different areas, and improve construction efficiency.

Pneumatic down-the-hole (DTH) hammer is a pneumatic drilling tool using compressed air as a power source. It is suitable for drilling in pebble, gravel, and hard rock ...

Pit-launched horizontal directional drills (HDD) excel at lateral installations when space is limited and can't accommodate a larger drill.

Surface drill rigs are used for blast hole drilling in construction, quarrying, and open-pit mining, covering a hole range between 27-229 mm. We offer the ...

Open-pit mining Surface down-the-hole drill rigs. MWYX-420 separated DTH drilling rig is equipped with a dual-motor rotary head and a rotary speed ...

Leopard(TM) DI560 is a highly mobile, compact, diesel-powered down-the-hole (DTH) drill designed for DTH blasthole drilling in mining, quarry and ...

The KG410/KG410H down the hole drill rig is particularly suited for operation in open pit mines and stone quarries. It comes equipped with a Yuchai four-cylinder engine (China III) and ...

The integrated open-pit down-the-hole drilling vehicle is an advanced drilling equipment that integrates the down-the-hole drilling system and the screw air ...

Applications for Down the Hole Drill Bits Down the Hole Drill Bits find applications in various industries, including mining, construction, oil and gas, and more. They are ideal for drilling ...

Highly efficient drilling The new Pit Viper 271 XC is one of the most productive drills available for rotary tricone and down-the-hole drilling of 6-3/4 in to 12-1/4 in (171 mm to 311 mm) diameter ...

Minimize your both the intelligence and power to drill production costs by optimizing drilling production blast, pre-split and buffer and blasting, improving fragmentation holes. Reverse ...

A: Yes, we are a professional down the hole drill rig and top hammer drill rig manufacturer. Q2: What does your company produce? A: The main products of our company include blasting ...

Looking for a split open-pit down-the-hole drill driver

The Epiroc Pit Viper PV-231 surface blasthole drill delivers application flexibility, fuel-efficient performance and enhanced safety with outstanding operator comfort and ease of ...

Split open-pit DTH drill rig ZGYX430 offered by Zhejiang Miningwell Machinery Co., Ltd, with a 30m drilling depth, it's suitable for open - pit mining. It features stable performance and is a ...

Powerful two-speed hydraulic traveling mechanism, strong off-road capability, and large torque swing motor can easily deal with drill stuck;4. The two-stage dry dust collection device is ...

The most productive drill available for rotary tricone and down the hole drilling of 171mm to 270mm (6-3/4" to 10-5/8 ") holes with up to 59 ft (18 m) clean hole single pass capability.

The KT15 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast holes and pre-splitting holes.

As a main mining drill, ZGYX-420/416-1 split open-pit downhole drill is widely applied in the mining site. The matched auxiliary power standard of this DTH drilling rig is divided into two models: ...

INTRODUCTION In this chapter, the term "down-the-hole drill" (DTH drill) is used as a generic name that encompasses the various trade names and other references such as "downhole ...

The reason customer want to drill the hole is that drill and blast is the most efficient and economic way to break rock instead of excavating it. ...

We know that open-pit mining operations mainly include drilling, blasting, mining, transportation and dumping. Blasting is a very important part ...

Presplitting is a widely used controlled blasting technique in open-pit mining, aimed at minimizing damage to the remaining rock formation and ensuring greater stability ...

DMiningwell 416T-1 small split down-the-hole drill rig is mainly used in quarries, cement mines, open-pit coal mines and other types of mines. It is equipped ...

As the key equipment for modern mining and infrastructure construction, ZGYX-420/420-1/420D series split open pit drilling rigs have attracted much attention in the industry due to their ...

Designed for DTH blasthole drilling in mining, quarry and construction industries, it comes with an operator's cabin, fixed boom, dry dust collector and drill pipe ...

The Epiroc Pit Viper PV-231 surface blasthole drill delivers application flexibility, fuel-efficient performance

Looking for a split open-pit down-the-hole drill driver

and enhanced safety with ...

KH712D open-pit down-the-hole drill adopts new hydraulic technology and is a powerful assistant for rock drilling in open-pit mining, road construction, water conservancy, power stations and ...

This DTH drilling equipment is the traditional heavy-weight split type drilling rig. Its full-featured design and high-standard deploy is well received by the majority ...
