

Midwest drill rig makers

Who is Midwest drilling?

Since 1985, Midwest Drilling, Inc. has provided expert geotechnical and environmental drilling for engineering firms, government agencies and land developers throughout the Midwest United States region. With over 10,000 successful projects under our belt, we have proven our reliability and expertise.

What rigs does Midwest drilling use?

Midwest Drilling utilizes both truck mount rigs and all terrain rigs. This versatility gives us the ability to handle almost any project no matter what the ground conditions may be. Mountains...desert...forest...rocky...sandy...we've got it all under control.

What is a water well drilling rig used for?

Backed by over 50 years of experience in the drilling industry, our drill rigs are used for water well and geothermal well drilling, geotechnical and environmental drilling, mineral exploration, geothermal wells, construction and utility work, and a wide range of other diverse applications. Our featured water well drilling rig is the SIMCO 7000.

What is the best water well drilling rig?

Our featured water well drilling rig is the SIMCO 7000. The 7000 is truly the work horse of the SIMCO water well drilling rigs stable. With an auto indexing drill rod carousel (10 or 16 drill rod) and up to 1,100 foot air or wet rotary drilling depth, the SIMCO 7000 is the ideal geothermal drilling and water well drilling solution.

How does Midwest drilling handle a geotechnical project?

GEOTECHNICAL DRILLING. Midwest Drilling can handle your project from beginning to end. We use two part field logs so you can receive samples and logs as soon as the last sample is taken. We have retained working relationships with many clients for fifteen to twenty six years and counting. Read more -> **ALL TERRAIN DRILLING.**
