

Mincon drilling

What kind of drilling equipment does MINCON offer?

Discover Mincon's world-class drilling equipment, DTH hammers, and rock drilling tools for mining, geotechnical, and construction industries.

Does Spartan Drill tools sell MINCON products?

Based on our vast experience and knowledge of the mining and drilling industries, Spartan Drill Tools offers the full line of Mincon products to any industry and region where hard rock drilling is required. This includes Mining, Waterwell, geothermal, quarries, and civil engineering drilling.

Are MINCON drilling tools a good investment?

Mincon's drilling tools are built to last, offering unparalleled durability and operational efficiency. Our products reduce downtime and maintenance costs, enhancing your return on investment.

Can MINCON's Rock Drill tools Help you Grow Your Business?

Schedule a discovery meeting with us today to see if Mincon's range of rock drill tools can help you grow your business. Mincon delivers high-performance drilling tools for mining, with solutions designed for productivity, durability, and reduced operating costs.

How can MINCON improve your mining & quarrying operations?

Elevate your production mining and quarrying operations with Mincon's unparalleled drilling solutions. Our technology enhances efficiency, precision, and safety, reducing costs while maximising output. Harness the power of Mincon's advanced drilling solutions for exploration mining and grade control.

What rotary drill bits does MINCON offer?

Discover Mincon's range of XP+ and APS rotary drill bits, designed to deliver unparalleled performance and incredible durability. Tailored... Experience the efficiency and speed of air-powered exploration drilling with Mincon's Reverse Circulation (RC) drilling systems. Our range of RC...

Mincon Group plc is a global engineering business specialising in the design, development, manufacture, and service of rock drilling tools for a ...

Mincon says the new Rock Drill mast attachments offer drillers cost-effective and attainable entry into the drilling market by an attachment to existing equipment, whether it's an ...

Horizontal Directional Drilling (HDD) projects in medium- to hard-rock conditions commonly result in unproductive penetration rates, when using conventional ...

Mincon's drilling solutions are designed to maximise efficiency and reduce operational costs, offering our

Mincon drilling

customers the industry's lowest total drilling costs.

Mincon designs horizontal drilling tools for trenchless and HDD applications. Achieve precise bore paths and reduced downtime with our high-performance systems.

Mincon delivers high-performance drilling tools for mining, with solutions designed for productivity, durability, and reduced operating costs.

Explore Mincon's drilling applications for mining, energy, and construction. Engineered tools for precision, durability, and performance in any terrain.

Solitary ring bit system is designed for drilling end-bearing piles through overburden into bedrock. The system can drill straight and inclined piles through boulders and rock layers and it easily ...

Mincon says the new Rock Drill mast attachments offer drillers cost-effective and attainable entry into the drilling market by an attachment to ...

Mincon's Spiral Flush system controls air and water during drilling to protect sensitive ground and structures like dams and tunnels.

Mincon Group plc is a global engineering business specialising in the design, development, manufacture, and service of rock drilling tools for a variety of ...

Mincon manufactures and distributes a range of precision engineered hard rock drilling tools for a variety of industries including Mining Exploration, Waterwell, Geothermal, Construction, ...

Based on our vast experience and knowledge of the mining and drilling industries, Spartan Drill Tools offers the full line of Mincon products to any industry and region where hard rock drilling ...

Mincon manufactures the finest and most efficient Down-the-Hole (DTH) hammers and bits for the mining, construction and water well industries. Drill and blast engineers and water well ...

Mincon's 4 inch DTH hammers provide reliable, efficient performance for a wide range of drilling applications including geotech, water wells, and mining

Solitary ring bit system is designed for drilling end-bearing piles through overburden into bedrock. The system can drill straight and inclined piles ...

Mincon Group plc is a global engineering business specialising in the design, development, manufacture, and service of rock drilling tools for a variety of applications.

Mincon drilling

The M120 drill mast delivers 6,000 lbs of pullback for pre-drilling in hard rock--ideal for solar, micropile, and foundation jobs using excavators.

Mincon delivers reliable drilling tools for production mining and quarrying, built for durability, precision, and performance in harsh ground conditions.

Mincon's HDD fluids and lubricants reduce friction and wear, supporting cleaner bores and improved performance in trenchless drilling projects.

The Mincon MP40-MC delivers faster, cleaner geothermal drilling with fuel savings and deep-hole durability. Discover the next-gen DTH hammer in action.

Explore Mincon's comprehensive selection of drilling solutions designed for unmatched performance in your applications. From precision-engineered DTH hammers to the industry's ...

Discover how Mincon's DTH hammers, pipes, and bits reduce fuel use, downtime, and maintenance to help lower drilling costs across mining operations.

Elevate your production mining and quarrying operations with Mincon's unparalleled drilling solutions. Our technology enhances efficiency, precision, ...

Mincon's Drill Pipes are engineered to exceed the demands of modern drilling operations, offering superior strength and durability. Manufactured with cold ...

Discover Mincon's HDD solutions designed for accuracy, durability, and minimal ground disruption in trenchless drilling applications.
