

# Minecraft modern industrialization oil drilling rig

What is an oil drilling rig?

&quot;type&quot;:

&quot;crafting&quot;,&quot;recipe&quot;:

&quot;modern\_industrialization:oil/oil\_drilling\_rig\_asbl&quot;:,The Oil Drilling Rig is a huge multiblock that can dig for Crude Oil under the bedrock using fluid pipes. Yes,it's an oil quarry basically. Oil processing will give you a ton of byproducts and energy!

Does the feed the Beast subreddit work with a modern industrialization oil rig?

The /r/feedthebeast subreddit is not affiliated or associated with the Feed the Beast company. Modern industrialization oil rig issue. Hi,I'm using modern industrialization as a part of statech modpack. The first oil rig I built works fine. However the second one does nothing when any drills are put in.

How much Diesel does an aluminum drill rig produce?

Now for diesel production. From the oil drilling rig,you'll get around 50 buckets of crude oil per aluminum drill. The 50 buckets of crude oil will yield you 30 bucketsof diesel +5 buckets of heavy fuel. (Forget about turbo diesel for now) So on average you'll gain around 500mb of diesel per second +(83mb heavy fuel/s).

How much oil does an aluminum drill rig use?

From the oil drilling rig,you'll get around 50 bucketsof crude oil per aluminum drill. The 50 buckets of crude oil will yield you 30 buckets of diesel +5 buckets of heavy fuel. (Forget about turbo diesel for now) So on average you'll gain around 500mb of diesel per second +(83mb heavy fuel/s). Which equates to 5000EU/t (plus 500EU/t).

Why does my oil rig not work if I put drills in?

The first oil rig I built works fine. However the second one does nothing when any drills are put in. I built it as an exact copy as the first one. It states the shape is valid, that it is active and has power. So anyone know why it does nothing when drills are put into it? You might not have a large enough fluid output.
