

# Mining blasting drill rig down-the-hole drill rig

Which drill rig is best for blasthole drilling?

A combination of increased pulldown force, rotary torque, and 2600 cfm air end, the Pit Viper 291 drill rig is one of the most powerful drills for blasthole drilling. Tested and proven throughout differing regions and conditions around the world. The new Pit Viper 291 exceeds all in its class.

How deep can a drill rig Drill a hole?

Designed to drill clean holes of 6-1/2 inch (165mm) to 8 inch (203mm) diameter to a maximum depth of 175 ft (53.3m) using 25 ft (7.6m) long rods and 120 ft (36.5m) using 30 ft (9m) long rods. REL'S DTH Drilling Rig - Manufacturers of Down the Hole Drills for Mining, Quarrying & Construction.

What size drill rig do I Need?

Electric-driven rotary blasthole drill for drilling 207 mm to 406 mm (10-5/8" to 16") holes with up to 19.8 m (65 ft) clean hole single pass capability. Electric-driven multi-pass rotary and DTH blasthole drill rig for drilling up to 171 mm to 270 mm (6-3/4" to 10-5/8") diameter holes.

How deep can a pit viper drill rig Drill?

Electric-driven multi-pass rotary and DTH blasthole drill rig for drilling up to 171 mm to 270 mm (6-3/4" to 10-5/8") diameter holes. With the ability to drill single-pass holes up to 18 m (59 ft) in depth and 270 mm (10-5/8 in) in diameter, the versatile Pit Viper 271 E offers the same exceptional performance the Pit Viper line is acclaimed for.

What is autonomous drilling?

Autonomous drilling can be implemented with almost no human interaction with the drill. Since the first introduction of both the Drill Master and the Pit Viper series, we continue to be unrivaled in our industry.

Where are Epiroc rotary blast hole drills made?

Produced out of Garland, Texas, and Nanjing, China, our machines are built in state-of-the-art production facilities and to the highest quality allowing fabrication to last through multiple repowers. Epiroc has a long history with designing and manufacturing main structures of rigs putting our rotary blast hole drills at the top of their class.

DR412i blasthole drill is designed to deliver dependable penetration and greater return on investment for rotary and DTH holes. From onboard automation that ...

Cat Rotary Blasthole Drill Rigs offer substantial technology, efficiency and productivity improvements to efficiently reach your mining targeted productivity rates. Learn more about ...

## Mining blasting drill rig down-the-hole drill rig

The ZT5 integrated open-air DTH drilling rig is an advanced equipment featuring an automatic rod-changing system and ergonomic cab. It integrates a DTH drilling system with a screw air ...

The ZT44 is a down-the-hole surface drill rig designed for mining-duty applications. It offers high reliability and production with purpose-built structures, a high horsepower engine and large ...

DTH drilling is often used in the mining industry (blast hole drilling), on construction sites, drilling water wells, and in the oil and gas industry.

A legend in the drilling industry Product description The DML rotary blasthole drill rig is a crawler-mounted, hydraulic tophead-drive rig that's suitable for a variety of multi-pass rotary and DTH ...

Discover how the right down-the-hole (DTH) drill rig can boost your mining and construction efficiency. Learn about rig types, key features, and ...

KG430/KG430H open-pit down-the-hole drilling rig adopts a folded track frame and engineering four-wheel belt, and adds track leveling and plunger travel ...

It integrates a DTH drilling system with a screw air compression system, powered by a Yuchai six-cylinder engine. Compact in structure with excellent integrity and mobility, this rig delivers ...

REL'S DTH Drilling Rig - Manufacturers of Down the Hole Drills for Mining, Quarrying & Construction. Our Machine available in range Diameter: 4" ...

Explore the most comprehensive line of surface rotary and DTH blast hole drilling rigs in the industry, with a multitude of configurations to choose from and ...

Drill Rigs in Surface Mining While drill rigs are essential for underground mining, they also play a significant role in surface mining ...

Zhejiang Kaishan Heavy Industry, part of Kaishan Group, manufactures advanced drilling equipment for mining, military, and construction. We offer safe, efficient, and customized ...

The reason customer want to drill the hole is that drill and blast is the most efficient and economic way to break rock instead of excavating it. ...

A legend in the drilling industry Product description The DM45/50 rotary blasthole drill rig along with their big brother, the DML, are some of the most popular ...

The KT25 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal

# Mining blasting drill rig down-the-hole drill rig

holes, mainly used for open-pit mine, stonework ...

This powerful drill rig is perfect for rock drilling and mining blasting operations. With its diesel power and flexible features, it is an essential tool for various construction tasks.

High-impact DTH blast hole drills engineered for mining, quarrying, and construction blasting. CINTRL rigs feature low air consumption hammers, depth accuracy (&#177;0.5&#176;), and rugged ...

The Fundamental Role of Blast Hole Drilling in Mining and Quarrying Before any material can be moved, it must first be broken. In hard ...

The effectiveness of the blast hole drill rigs solution is critical in the dynamic world of mining to achieve maximum extraction of rich minerals. ...

35m depth kt25 Efficient dust collection system dth Blasting hole integrated mine drill rigs for open Use mining KT25 open-pit down-the-hole drilling rig is a new ...

Sandvik D45KS drills holes down to a maximum depth of 63 meters (206.69 ft) and is designed for coal, gold and iron ore mining. It prioritizes easy maintenance and repairs for applications ...

Down-the-hole (DTH) drilling: DTH drilling uses a pneumatic hammer directly behind the drill bit. This technique is effective for precise, ...

The KT11 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes. mainly used for open-pit mine, stonework ...

To meet your drilling and blasting objectives, look to powerful and reliable P& H rotary and down-the-hole blasthole drill rigs.

Blast hole drills are specialized rigs used to drill holes for explosives, critical in the blasting phase of surface mining. These drills must be robust and precise, ...

Blasthole Drilling We provide blasthole drilling services for mining, quarrying, and construction projects, using high-performance rigs, experienced operators, and precise techniques to ...

In the world, there are hundreds of player, who making the Drill Rigs from one century ago. Their drilling machine cover almost all drilling ...

The world of mining drilling equipment is vast - from exploration core drilling rigs that peer miles into the earth, to bulk production drills that ...
