

Moody mansion ocean star offshore drilling rig and museum

What can you see at Ocean Star Jack-up rig?

Take a leisurely, self-guided tour through the retired Ocean Star jack-up rig which now serves as a museum and educational facility. From geological exploration, to drilling, to oil and gas production, you will see offshore drilling equipment, exhibits and videos on three levels of this refurbished offshore drilling rig.

How deep is the Ocean Star oil rig?

Operating in depths up to 173 feet of water, the Ocean Star was designed to drill wells up to 25,000 feet. The oil rig spent its drilling life in the Gulf of Mexico and after it was retired it was purchased by the Energy Education Foundation after drilling over 200 wells.

What is decommissioned Ocean Star offshore drill rig & Museum?

Decommissioned Ocean Star Offshore Drill Rig and Museum lets you experience what it can be like on a working offshore jack-up drill rig.

What happened to the Ocean Star oil rig?

In 1997 the Ocean Star was moved to Pier 19 in Galveston where it would find its new home and serve as a museum and education center for future explorers to experience what life is like aboard a once working, mobile jack-up drilling rig. The Ocean Star Oil Rig was built in 1969 at Bethlehem Steel Shipyard in Beaumont, Texas.

Who lived at the Moody House in Galveston Texas?

Restored in 1895, this Galveston landmark was originally the home of one of the country's wealthiest people in the 1950s, W.L. Moody, Jr. The property is still full of original family memorabilia and is available for rent for private parties and events.
