

Nabors drilling rig fleet list

What types of drilling rigs does Nabors use?

The company operates drilling rigs in various oil and gas basins worldwide. Drilling Fleet: Nabors has a diverse fleet of drilling rigs that are designed for different drilling environments and applications. This includes land-based rigs, offshore rigs, and specialty rigs equipped for specific drilling challenges.

What is a Nabors rig?

Nabors is a leading provider of offshore platform workover and drilling rigs. Within the platform rig market, Nabors offers its innovative MASE and MODS (TM) rigs, the latter designed to withstand the wind and wave action associated with deepwater offshore drilling.

What is a Nabors pace-F rig?

Nabors PACE-F rigs feature innovative advanced features that provide both. The Nabors rig fleet represents one of the world's youngest and most advanced fleets in the gas drilling and land drilling industries. Based on our worldwide drilling experience, Nabors has engineered a series of programmable A/C electric, or PACE rigs.

Which Nabors rig is best?

Nabors PACE-S rigs feature innovative advanced features that provide both. Capable of withstanding the harshest weather conditions, the PACE-B has a reputation for delivering high performance. Its Box-on-Box substructure and cantilever mast offer unmatched versatility and rapid rig up and rig down times, making it the premier rig design.

Who owns Nabors drilling?

Nabors Drilling, based in Calgary, was founded as an Alberta corporation in May 1952 as the Parker Drilling Company of Canada Limited, a wholly-owned subsidiary of the Parker Drilling Company. The American parent had been founded in Tulsa in 1934 by Gifford Cleveland Parker (1897-1967).

What services does Nabors offer?

Nabors also offers comprehensive automated offshore drilling equipment and well-site services including engineering, transportation, construction, assembly, maintenance, repair, operation, well logging, directional drilling, rig instrumentation, data collection, data instrumentation, and data storage to support offshore drilling.

Each month Westwood's onshore team provides a global update on land drilling rig supply, with data sourced from and analysed using Westwood's Global Land Rig tool.
