

Number of drilling rigs in us 2011

How many offshore drilling rigs are there in the world?

Less than half of the companies engaged in offshore drilling worldwide had only one rig in operation as of January 2018, where 78 companies out of a total of 139 offshore oil companies fell into this category. Pemex, short for Petróleos Mexicanos, had the most offshore drilling rigs worldwide in January 2016, at 49 rigs.

How many oil rigs are there in the US?

As of Aug. 9, there were 764 oil rigs currently operating in the US. Despite this decline, U.S. production currently stands at about 12.3 million barrels per day (bpd).

Are Top-Drive drills better than rotary rigs?

In more recent years, rotary rigs are being replaced by top-drive drills, which are much more efficient as they can bore for two or three times more than a rotary rig in one section. [Read more](#)
