

Oil drill rig forecast

What is the oil field drilling rig market?

The oil field drilling rig market is segmented into land rigs and offshore rigs. Land rigs are used for onshore drilling operations and are highly preferred due to their cost-effectiveness and ease of mobilization.

What are the growth factors for the oil field drilling rig market?

One of the primary growth factors for the oil field drilling rig market is the technological advancements in drilling techniques. Innovations such as horizontal drilling, enhanced oil recovery (EOR), and hydraulic fracturing are driving the efficiency and effectiveness of drilling operations.

How many drilling rigs are there in 2028?

Westwood Global Energy Group expects to see a slight increase in the total number of onshore drilling rigs operating around the world, from 4,384 in 2024 to 4,617 in 2028, which is the end of its most recent forecast period. The number of wells spud will also increase, from 49,300 this year to around 51,000 in 2028.

Will oil rigs fall in early 2026?

Our Standards: The Thomson Reuters Trust Principles. The falling number of oil and gas rigs deployed across the United States is reaching a level that would indicate onshore crude output from the world's top producer could fall in early 2026.

What will drilling be like in 2025?

World Oil's Editor-in-Chief/Chief Forecaster Kurt Abraham gave the closing presentation of the morning, delivering highly anticipated projections and data for drilling activity in 2025. According to the forecast, U.S. drilling is expected to see a slight increase, with 1.7% more wells drilled than in 2024.

What is the rig power segment of the oil field drilling rig market?

The rig power segment of the oil field drilling rig market is categorized into electric, mechanical, steam, and hydraulic rigs. Electric rigs are gaining popularity due to their efficiency and reduced environmental impact. These rigs use electric motors for drilling operations, which offer higher precision and control.

Ultimately, we expect lower prices will reduce drilling activity and investment in U.S. production of crude oil and other liquids, leading to a small increase in production in ...

The November election brought optimism to many oil producers who felt hamstrung by the Biden Administration's policies. Even Biden's ban ...

By Bruce Beaubouef, Managing Editor The "Big 3" offshore drillers - listed as Transocean, Noble Corp., and Valaris by Evercore ISI - are all reporting "strong offshore ...

Oil drill rig forecast

Westwood forecasts an average of 53,000 wells to be spud annually from 2025 to 2031, with the Americas to lead drilling activity.

Drilling Rig Market Size & Share Analysis - Growth Trends & Forecasts (2025 - 2030) The Report Covers the Drilling Rig Market Size & ...

Although the oil and gas industry is no stranger to disruption--and recent history suggests it has emerged stronger from such challenges--the coming year ...
