

Pacific drilling number of rigs

How many drillships does Pacific Drilling have?

Currently, Pacific Drilling has 7 modern drillships: Pacific Meltem, Pacific Sharav, Pacific Khamsin, Pacific Santa Ana, Pacific Scirocco, Pacific Mistral and Pacific Bora.

Who is Pacific Drilling?

Thirty years of experience with full size and limited-access drilling, combined with skilled equipment operators, and a fleet of technologically advanced drilling rigs make Pacific Drilling the reliable choice for all your drilling and soil/water/vapor sampling projects.

How many employees does Pacific Drilling have?

Today, Pacific Drilling has nearly 1,000 employees, with offices in Houston, Texas, Brazil, Nigeria and Luxembourg. Early in its development, Pacific Drilling established its vision to be the industry's preferred ultra-deepwater drilling contractor.

What makes Pacific Drilling different from other offshore drilling companies?

Unlike its peers, the company was built "from scratch," without acquiring management or operating systems from an existing offshore drilling contractor. Pacific Drilling's fleet was built to its specifications, with an emphasis on consistency and technology. In August 2011, Pacific Drilling commenced drilling operations in Nigeria.

Is Pacific Drilling a good company?

Always excellent service from Pacific Drilling. The equipment is in great condition, and all their staff is very knowledgeable. Their Team is always helpful and available to discuss the project specifics and recommend the proper equipment and scope for challenging projects. Highly recommend Pacific Drilling.

Does Pacific Drilling have asset management strategies?

Pacific Drilling's proactive asset management strategies result in less operational downtime than the industry has traditionally experienced. As the offshore drilling market downturn began in 2015, Pacific Drilling also led the industry in its innovative drillship smart-stacking methods.
