

Pantera drill rig 1100

What type of drill rig is a Pantera dp1100i?

Pantera DP1100i is a hydraulic, diesel-powered, self-propelled top-hammer drill rig, and it is the ideal choice for production or pre-split drilling in large quarries or open pit mines and construction sites. This intelligent, crawler-mounted ...

What kind of drill does Pantera 1100 use?

Pantera 1100 is equipped with HL 1000, hydraulic top hammer rock drill. With high rotation torque, proper flushing and sophisticated, ergonomic drilling control system the rig adapts itself easily into varying rock conditions. The rig has a telescopic boom for fast hole spotting and set up of the feed.

What is a Pantera 1100 rig?

Pantera 1100 is a hydraulic, self-propelled, self-contained, crawler based surface drilling rig equipped with a cabin and a rod changer.

How do you drill a hole in a Pantera 1100?

Good results in difficult ground conditions are obtained by using pilot tube drilling, where the first rod is replaced by a 76 or 87 mm (3" or 3 1/2") special tube. Pantera 1100 is equipped with HL 1000, hydraulic top hammer rock drill.

What is a powerpack on a Pantera 1100?

Powerpack is mounted crosswise at the rear of the rig to balance the weight of the boom and the feed. Pantera 1100 has an ergonomic and roomy full vision cabin to increase operator's comfort and efficiency. The cabin is certified for F.O.P.S. and R.O.P.S. (Falling Object Protection Structure and Roll-Over Protection Structure).

Does Pantera 1100 have a full vision cabin?

Pantera 1100 has an ergonomic and roomy full vision cabin to increase operator's comfort and efficiency. The cabin is certified for F.O.P.S. and R.O.P.S. (Falling Object Protection Structure and Roll-Over Protection Structure). Windows are safety laminated and the noise level in the cabin is less than 80 dB(A).
