Overview Development History Consortium Environment ExxonMobil withdrawal See also External links The three fields will be developed in this order: Chayvo, Odoptu and Arkutun-Dagi. The total project is estimated to cost US\$10-12 billion, making it the largest direct investment in Russia from foreign sources. It is also estimated that nearly 13,000 jobs will be created either directly or indirectly. Approximately \$2.8 billion has already been spent, which helped lower unemployment and improved the tax base of the regional government. The fields are projected to yield 2.3 billion...
