

Pipe fabrication drilling rig

Many factors influence rig construction cost. Market conditions, design type and class, construction shipyard, and rig specifications are the primary factors.

Our complete portfolio drilling rig equipment includes top drives mud pumps, drawworks, iron roughnecks up to the latest innovative Stinger, for complex ...

Columbia Industries specializes the fabrication of heavy equipment used in the oil & natural gas industries like our oil rig walking systems.

Our custom hydraulic catwalks improve tubular handling, reduce rig floor fatigue, and support safer, faster tripping operations. Designed for use with workover ...

Whether it's a new rig build, refurbishment project, or a sub-sea requirement, Lonestar Energy Fabrication has the expertise, facilities, and quality standards to get the job done right.

our history is off-shore drilling fabrication, our present is world class fabrication across all markets Whether it's a new rig build, refurbishment project, or a sub-sea requirement, Lonestar Energy ...

We will work with you on an individual basis to determine your unique rig design needs. We integrate the drilling and pipe handling equipment (drawworks, top drive, mud pumps, iron ...

From New Rig build to Refurb Job, Tech Fab will ensure and maintain the highest quality standards in the industry. This is inclusive of documentation, material handling, fabrication, ...

Conductor pipe or drive pipe, including platform conductors, Jackup-supported conductors and free-standing conductors, is an area that can offer significant cost savings. ...

Drillmec is a worldwide leader in design, manufacturing and integration of full drilling rig and workover packages for onshore and offshore applications. Drillmec's drilling equipment and ...

Jelec, we understand that one drilling package design - one brand rig equipment - doesn't fit all. We will work with you on an individual basis to determine your unique rig design needs. We ...

Gulf Copper's primary business is the repair and refurbishment of marine vessels, offshore rigs, and the fabrication of ancillary components and equipment for ...

RMC's design, engineering and fabrication capabilities are tailored towards the oil and gas drilling rig

Pipe fabrication drilling rig

industry. We are capable of designing for the customer's specific application or we can ...

The 5 "pipe riser capacity is the amount of pipe that can hold 5 inches of drill pipe in the derrick. The pipe capacity of the derrick is usually expressing as the ...

DRILLTECH UAE Offers Engineering, Equipment manufacturing, fabrication, installation and maintenance services to a broad range of industries and is ...

Whether pipe baskets, tool baskets, hatch baskets or drum baskets. We offer multiple basket units for lifting, carrying and transporting drill pipe, casing, fishing tools and other essential cargo. ...

our history is off-shore drilling fabrication, our present is world class fabrication across all markets Whether it's a new rig build, refurbishment project, or a sub ...

The body of the drill pipe is the main section of the pipe, which is responsible for transmitting the rotational force from the drilling rig to the drill ...

PT Petrodrill Manufaktur Indonesia is an API certified leading engineering and manufacturing company for drilling rig and drilling components such as ...

Since 1973, Drilling Structures International has been a leader in Drilling Rig fabrication. 2019 marks the 20th year for our API 4F license, making DSII one of the 5 oldest rig builders in the ...

At Tulasi Fabrication, we always put our clients' needs first. Whether you wish to supply your own rig drawings or would like to use ours, we can fabricate the drilling rig that you need within ...

DSL Fabrication Facilities Our Facilities are located in Great Yarmouth in the UK from where we carry out a range of fabrication projects ranging from general ...

B& E Resources has built a solid reputation for its manufacture of drilling rigs and related equipment packages. Our quality fabrication facilities provide high quality solutions with ...

While the jacket acts as a stable foundation below the waterline, the topside is the heart of a platform and often operates as facility for the further processing of oil and gas, drilling rigs or ...
