

Portable drill rig split spoon sampler

Tired of struggling to open your split spoon sampler, resorting to gripping with bench vises and beating with wrenches? Then you're ready to try the simplicity and speed of the patented ...

For others who want the convenience of owning soil sampling equipment, such as site prep or design-build contractors, portable soil sampling tools are an economical foot in the door. We ...

Our most popular sampler is a 2" x 30" split-spoon with flow-through back-end. To advance this sampler we can use a gas powered Pionjar 120 or an electrically ...

The Massenza M11 is a very compact rig on extendable tracks that can perform work indoors or in small places. The rig comes complete with a rotary drive head producing 1,000 ft lbs of ...

Easy to use and portable dynamic probing rig, the new Massenza MSPT can be used for SPT, DPL, DPM and DPH tests, split spoon, window and liner ...

The split-barrel (or split spoon) sampler is used to obtain disturbed samples in all types of soils. The split spoon sampler is typically used in conjunction with the Standard Penetration Test ...

Compliance with ASTM D-1586, IS : 2131. Complete set up consists of Split spoon sampler (Head, Split barrel & shoe) : 1 No, Drive Monkey weight 63.5 ...

Gain Geotechnical Insights with Legion Drilling The Standard Penetration Test (SPT) is a widely used in-situ testing method for evaluating the geotechnical ...

It can be used with Little Beaver's AWJ drilling rod and 2-inch by 24-inch split spoon sampler, which allows users to obtain core samples for environmental ...

At TMG you can get spt products, cpt products and core drilling products, like spt hammers, spt tripods, cpt cones, diamond core drill bits, dcp kits, spt split spoon samplers and much more.

This 70-pound tool pulls double duty as both a rock-drill and hammer/breaker. This means you can use it to both core through concrete and drive a split ...

Made of durable plastic, sampler liners allow you to maximize sample recovery inside split spoons. To help preserve the entire recovered sample, plugs can be purchased to ...

Hollow stem soil sample auger is turned to the desired depth with a pilot bit blocking the off the auger ID. The

Portable drill rig split spoon sampler

pilot bit is pulled and a split barrel sampler ...

The LST1G+HDA, the newest of Lone Star Drills' geotechnical rigs, addresses the growing need for automatic hammers for soil sampling applications.

The rig comes complete with a rotary drive head producing 1,000 ft lbs of torque/300 rpm for auger drilling and coring. The MI1 can also perform SPT tests, undisturbed split-spoon ...

For geotech and infrastructure projects, there is no viable alternative to split spoon or SPT technology. It is the industry standard method for measuring the load bearing capability of a ...

The Beaver is set-up to operate 4 1/2" solid-stem augers or up to 8" OD Hollow-stem augers. This rig can reach depths of over 50-feet in the right conditions. ...

Our Products TMG Manufacturing offers an extensive line of quality underpinning & compaction grouting products and drilling tools, installation equipment and ...

Explore the Massenza MSPT, a highly versatile modular drill rig designed for geotechnical Split Spoon and environmental "Direct Push" sampling in limited-access locations.

Hollow stem soil sample auger tools for geotechnical drilling. Split barrel sampling taken through auger sampler with interlocking split spoon sampler.

The "standard drive sampler" test was subsequently adopted by ASCE and The Corps of Engineers in Hvorslev's "Subsurface Exploration and Sampling of Soils for Civil Engineering ...

Soil and Rock Samplers Split Spoon Sampler Modified California Sampler Dames & Moore Sampler Shelby Tube Piston Sampler N-Size Double Tube Conventional and Wireline Coring ...

It is still used for this purpose when drill rigs can achieve the depths required; in such cases, a hole is drilled to the top of the interval needed for the sample (typically with ...

CME 45 Truck Mount Truck mount drilling rigs are available for hollow stem auguring, split spoon sampling, and coring. Ideal for MTO and pavement studies, Shallow Geotechnical & ...

The interlocking split spoon sampler is built to be 2X stronger, last longer, and saves both money and field time over a conventional split spoon.

AMS offers a variety of split-spoon and Shelby tube sampling samplers. Such samplers can be used with AMS direct push tooling instead of hollow stem augers to provide an efficient and ...

Portable drill rig split spoon sampler

Pionjar COST-EFFECTIVE ENVIRONMENTAL DRILLING The Pionjar 120 Drilling System is a cost-effective solution for the environmental sampling of soils between 5 to 8 meters in depth. ...

The Pionjar 120 Perhaps the most portable and accurate soil sampling option available. The Pionjar 120 hand held drilling system is a simple cost-effective ...
