The Precision Drilling rig locator map is updated weekly with the Precision Drilling rig locations. Click to [Access Map](#)

Where are precision drilling rigs used?

These rigs are used in both onshore and offshore drilling operations. Geographic Presence: While Precision Drilling is based in Calgary, Alberta, Canada, it operates globally, with a significant focus on the North American market. The company has a presence in key oil and gas regions in Canada, the United States, and internationally.

How many rigs does Precision Drilling have in Canada?

Precision Drilling Corporation (TSX:PD; NYSE:PDS) ("Precision" or the "Company") today provides an update on its North American drilling operations. In Canada, we have 46 rigs active today and expect to have over 60 rigs active by the end of the month as we begin to emerge from the lows of spring breakup.

How has digital drilling technology changed rig automation?

Digital drilling technologies have made drilling faster, more consistent and safer than ever. Discover Rig Automation additions for the Precision Super Single: Precision's High Performance XY moving system travels up to 300 feet in any direction without disconnecting from the backyard complex.

What is a precision Super single rig?

The Precision Super Single has the lowest load count of our fleet and is a lightning-fast mover. A pad walking Super Single version is available. The walking system utilizes our unique umbilical connection system allowing the rig to move from well to well quickly with virtually no moving equipment.
