

Push drilling rig dayrates

What is a drilling rig day rate?

It represents the daily cost incurred by an operator for renting a drilling rig from a contractor. This rate encompasses various expenses associated with the rig, including personnel, equipment, and operational costs, over the duration of a contract. The day rate comprises all-inclusive costs involved in running a drilling operation.

What is a day rate in oil drilling?

The day rate in oil drilling refers to the total daily cost of renting a drilling rig, including personnel and incidentals. It's calculated by dividing the total contract value by the number of days in the contract. Day rates are a key metric for investors, indicating industry health and correlating with oil prices and rig utilization rates.

Why do drilling companies demand higher Dayrates?

Drilling companies are in a stronger position to demand higher dayrates for their equipment after several lean years that led to a wave of mergers and pushed them to scrap older rigs, leaving fewer available now that demand is rebounding.

Is the offshore drilling rig market going down in 2024?

The year 2024 has been another strong year for the offshore drilling rig market with high utilisation and dayrates. However, the winds of change have started to blow, and the market is already showing some signs of weakening demand and declining dayrates across the three main rig types - jackups, semisubs, and drillships.

Why are oil rig rental rates rising?

OSLO, May 27 (Reuters) - Rental rates for offshore oil and gas rigs have rocketed higher, boosted by a race to lift production because of the war in Ukraine and a recovery in demand after the COVID-19 pandemic.

How much does a floating rig cost in 2024?

The year 2024 brought some additional clean (that is, excluding additional items such as MPD or integrated services) floating rig rates above US\$500,000 per day, as well as the first rate recorded during this cycle over US\$600,000, which was for an eighth generation drillship to conduct high-specification 20K project work in the US Gulf of Mexico.
