

Radio controlled drill rig

Sandvik Mining and Rock Technology presents two years' worth of upgrades on the remote-controlled Dino™ DC400Ri surface top hammer drill ...

AutoMine™; Tele-Remote is Sandvik's entry-level smart teleoperation solution. The system provides an easy way to start exploring the full potential of Sandvik ...

The document describes the Atlas Copco ROC D5 and ROC D7 surface drill rigs. Some key points: - The ROC D5 is for drilling holes between 35-89mm and ...

Sandvik Construction added a completely new radio remote-controlled drill rig to its surface top hammer drill rig offering. Engineered from its conception to combine all the best ...

Our Explorac range provides exploration drillers with the only reverse circulation drilling rigs on the market which are specifically designed for reverse ...

Sandvik Mining and Rock Technology presents two years' worth of upgrades on the remote-controlled Dino™ DC400Ri surface top hammer drill rig for urban ...

In drilling and trenching operations, precision and safety are paramount. Whether navigating complex underground utilities or managing large-scale excavation projects, Hetric Radio ...

The MPP Scout carrier was developed to support drilling projects in remote areas. The carrier is compact, lightweight and very mobile. Configured with our MPP ST rubber tracked ...

MR-C 20P hydraulic radio-controlled track mounted drilling rig designed for horizontal, vertical, or inclined holes. You can equip the rig with rotary head or ...

Sandvik Ranger™ DX800R is a hydraulic, self-propelled, self-contained, crawler-based surface drilling unit with a radio remote control panel and rod handling system. Designed for efficient ...

Commando™ DC300Ri drill rig is a hydraulic, self-propelled, compact drilling unit on a four-wheel oscillated drive carrier with full radio remote control. Easily ...

Precise control from a safe position: HBC radio systems for drilling machines. HBC radio systems are the perfect choice for the wireless control of conveyor ...

The MR - C 95 radio-controlled drill rig, designed with single section arm and double turn table system allow

Radio controlled drill rig

the maximum flexibility and versatility for ...

Ranger(TM) DX600R is a hydraulic, self-propelled, self-contained, crawler-based surface drilling unit with a radio remote control panel and rod handling system. ...

An RC-equipped drill rig can quickly be converted to production drilling. Our rigs support inclined drilling which makes it easier to find the boundaries of the ore ...

HBC-radiomatic radio remote control systems - safe, efficient, convenient! Are you looking for a radio remote control system for machinery, lift equipment, or ...

Innovation Remote Controlled Drill Rigs FORACO pioneered the deployment of the first wireless remote controlled RC rig with full Measurement While Drilling (MWD) in the Pilbara in late ...

Radio remote control coupled with automation means drill crews can conduct normal drilling operations from a safe distance. Sometimes it's necessary approach the machine. LED safety ...

The Dino DC400Ri is a hydraulic, self-propelled, self-contained, crawler-based surface drilling unit with full...
Read More Drilling & Blasting Dino DC400Ri, drill rig, Radio Remote-Controlled Drill ...

The rig is designed for working safely with various drilling methods: direct circulation, down the hole hammer drilling and augering. Thanks to the remote radio control the rig can be ...

Riko Control Systems, together with their strategic partners, completed the upgrade of a Furukawa drill rig to full radio remote control for a client. The system allows the operator to ...

A remotely radio-controlled hydraulic, crawler-based surface drilling unit, Dino(TM) DC420Ri is designed for drilling 51 to 76 mm (2 to 3 in.) hole sizes. It provides ...

The Dino DC400Ri is a hydraulic, self-propelled, self-contained, crawler-based surface drilling unit with full radio remote-control operation for 51- to 76-mm hole sizes. It offers ...

MR-C 95 from Western Equipment Solutions is a radio-controlled track-mounted drill rig offering flexibility for vertical, horizontal & inclined drilling, ideal for ...

Ranger(TM) DX600R is a hydraulic, self-propelled, self-contained, crawler-based surface drilling unit with a radio remote control panel and rod handling system. Designed for fast top hammer ...
