

Ranger drilling rigs

Ranger DQ500 is a hydraulic surface drilling rig with a ROPS and FOPS-certified cabin, radio remote control and rod handling system. It is designed for pilot ...

The DX rigs huge coverage area that lets you drill more holes, faster, from a single set-up. Their power, precision and versatility make them an ideal choice for construction, quarrying or surface ...

Building the foundation for Chimney Hollow requires complex work to ensure the base of the dam is firmly set in place and subsurface seepage is mitigated. To accomplish that task, crews are ...

Ranger(TM) DX800 is a hydraulic, diesel-powered, self-propelled top hammer drill rig with an ergonomic cabin and rod handling system. Typical applications are road cutting, pipeline ...

Overview Sinking History and design Causes and effects Aftermath Further reading External links On 26 November 1981, Ocean Ranger commenced drilling well J-34, its third well in the Hibernia Oil Field. Ocean Ranger was still working on this well in February 1982 when the incident occurred. Two other semi-submersible platforms were also drilling nearby: Sedco 706, 8.5 miles (13.7 km) NNE, and Zapata Uglund, 19.2 miles (30.9 km) N of Ocean Ranger. On 14 February 1982, the platforms received reports of an approaching storm linked to a major Atlantic hurricane ...

TAKE A BIGGER PIECE OF THE PIE The new Ranger DX900i is the flagship model of our new Ranger DXi family. Featuring the most powerful rock drill in its class, Sandvik intelligence ...

This piece marks the 40 year anniversary of the Ocean Ranger oil rig tragedy off Canada which claimed the lives of all 84 people on board.

DRILLS TECHNICAL SPECIFICATION Ranger DX800 is a hydraulic, self-propelled, crawler based surface drilling rig equipped with a cabin (F.O.P.S. and R.O. P.S.) and rod handling ...

Typical applications for Ranger DX800 are road cutting, pipe-line drilling and foundation drilling, as well as production drilling in medium size quarries. Therefore Ranger DX800 is most often ...

The oil and gas well service industry has not seen much innovation in decades, but data acquisition systems, such as Ranger RIGS(TM), developed ...

The Ranger DX series rigs are best suited to drill hole sizes between 51-127 mm (2"-5") in applications such as road cutting, pipeline drilling and foundation drilling as well as production ...

Ranger drilling rigs

Sandvik intelligent surface drill rigs bring the latest technology to surface mining applications. View our leading range of surface drilling rigs.

Get reach. Get performance. Get connected. Sandvik introduces next-generation Ranger(TM) DXi Series drill rigs for wide hole size range from 64-140mm (3"-5½"). A...

Ranger Drilling, Perth. 1,508 likes · 56 talking about this · 11 were here. Ranger Drilling offers the following Drilling services throughout WA: - Water Bore Drilling - Grade Control - Diamond Core...

Ranger is one of the largest providers of high specification mobile rig well services, cased hole wireline services, and ancillary services in the U.S. oil and gas industry.

The Ranger Rig Energold's Ranger rig, designed and built by Energold, is a lightweight, modular rig that maximizes the benefits of portable drilling without sacrificing capability or performance. ...
