

Raptor drilling rig

RAPTOR-250 Water well drilling rig: The 250m water well drilling rig is a high-performance equipment designed for well water source exploration and drilling. It is widely used in ...

Working on the rigs is never easy, and is a labour intensive job with long and strenuous hours. The backbreaking life of a roughneck, the iconic worker bees of oilfield drilling rigs, is getting a ...

The Raptor rig, which was famous as Canada's entry into the race to become the world's first fully automated land rig, was created by a company that ran out of cash in the ...

RAPTOR 7X is an electro-hydraulic rig, for production applications by drilling long holes, in sections from 4.0 x 4.0 to 6.0 x 6.0 m. Fully mechanized operation, with the appropriate ...

Raptor Drill Rig MASTS, just don't help you tap through the earth's crust of Dino sized fossils, it helps you punch through time. Built LOCAL and built TOUGH by the men and ...

RAPTOR 44 is an electro-hydraulic drilling rig for long hole drilling with a 4AP hydraulic Boom with parallel holding. In addition, it has a barycenter system to automatically synchronize the drilling ...

RAPTOR 44 XP is an electro-hydraulic rig for long hole drilling, It has an hydraulic boom, 4AP model, with automatic parallel holding. 8000 series, Long Hole ...

The company has a charter fleet of 29 marine vessels for offshore operations. It also makes top drilling drives, directional drilling systems, equipment for rig instrumentation and for data ...

Maximum weight 30 tons Installation of mechanical or grouted ground anchors Holes up to 800mm diameter No Commercial diver or ROV requirements Multiple drilling adaptors to suit ...

28.4.2022 We develop and manufacture Raptor CNC drilling machines, which we fully adapt to the customer's application. All CNC drills are made to order. ...

RAPTOR 7X Long hole drilling rigs RAPTOR 7X is an electro-hydraulic rig, for production applications by drilling long holes, in sections from 4.0 x 4.0 to 6.0 x 6.0 m. Fully mechanized ...

RAPTOR-250 Water well drilling rig: The 250m water well drilling rig is a high-performance equipment designed for well water source exploration and ...

The RAPTOR 7X is a fully mechanised and automated electrohydraulic rig for long hole applications on

Raptor drilling rig

sections from 4 x 4 m up to 6 x 6 m. It's a cutting-edge machine perfectly ...

RAPTOR-250 Water well drilling rig: The 250m water well drilling rig is a high-performance equipment designed for well water source exploration and ...

Visiting with Raptors Bara Consulting's Jim Pooley, Etienne de Villiers, and Adam Kuhl recently visited the DMC (Drilling, Mining, Construction) facility near Potchefstroom in South Africa to ...

In 2001, Resemin launched the Raptor long-hole drill rig, and almost immediately acquired a foothold in the international market with sales ...

The document describes several production drilling rigs and roof bolting rigs produced by Resemin Fleet. It outlines the specifications of the Raptor Mini ...

Raptor Anchoring designs and manufactures rock and screw anchors for subsea, onshore and civil engineering applications. Our anchors are the result of 40 years experience in the drilling ...

They had started Raptor Rig to build the first, fully automated drilling rigs that require no on site teams to operate and reduce drilling costs by 30%.

It has a hydraulic boom with automatic parallelism and two rotation units that allow drilling very close to both walls of the mine section, which not only reduces dilution but also facilitates the ...

RAPTOR 44 XP 1 / 4 Pages Catalog excerpts Production long hole rig for small sections RAPTOR 44 XP is an electro-hydraulic rig for long hole drilling, It has an hydraulic boom, 4AP ...

RAPTOR-S320 Premium Edition Water well drilling rig: The 200m water well drilling rig is a high-performance equipment designed for well water source exploration and drilling. It is widely ...

RAPTOR-250 Water well drilling rig: The 250m water well drilling rig is a high-performance equipment designed for well water source exploration and drilling. It is widely used in ...
