

Remote control drill rig

TECHNICAL SPECIFICATION Teleremote drilling is an advanced and portable drilling control station available for Sandvik DD422i / DD422iE development drills allowing easy and reliable ...

TECHNICAL SPECIFICATION Trimmer DQ240R is hydraulically operated, excavator mounted line drilling unit for dimensional stone quarries. DQ240R includes feature rich drilling control ...

Our Explorac range provides exploration drillers with the only reverse circulation drilling rigs on the market which are specifically designed for reverse ...

2022 Gtechdrill GT-16 Tier 4 Final Stage 5 rubber track mounted drill, Wireless remote control drilling console, over 16,000 ft lbs of torque, Mud Rotary Wash ...

The remote screen, attached to the remote-control unit, gives a perfect view of the drill rig alignment and displays the drilling and tramming parameters for easy ...

Remote-control drilling Hall Core is a pioneer in remote-controlled drilling technology, as one of the first companies to have developed fully remote-controlled drill rigs that utilise two-way ...

Tribe Technology has successfully delivered its first autonomous RC drill rig to the Australian Automation & Robotics Precinct in Australia.

Sandvik Ranger(TM) DX800R is a hydraulic, self-propelled, self-contained, crawler-based surface drilling unit with a radio remote control panel and rod handling system. Designed for efficient ...

Sandvik Mining and Rock Technology presents two years' worth of upgrades on the remote-controlled Dino(TM) DC400Ri surface top hammer drill ...

Drill rig OEMs race to perfect autonomous and remote control solutions and technologies, and eye horizontal integration By Jesse Morton, ...

Ranger(TM) DX800R is a hydraulic, self-propelled, self-contained, crawler-based surface drilling unit with a radio remote control panel and rod handling system. ...

Sandvik Ranger(TM) DX600R is a hydraulic, self-propelled, self-contained, crawler-based surface drilling unit with a radio remote control panel and rod handling system. Designed for fast top ...

Commando(TM) DC300Ri drill rig is a hydraulic, self-propelled, compact drilling unit on a four-wheel

Remote control drill rig

oscillated drive carrier with full radio remote control. Easily ...

MDR (Remote Control) Find The Perfect Drill Rig, That Fits Your Needs MDR (Remote Control) comes in two models. Choose between steel or aluminium.

FlexiROC T35 R is a flexible and versatile topammer drill rig with full Radio Remote Control of drilling, tramming, and winch functions, developed and designed for high performance in ...

In contrast, on the production side, autonomous drilling equipment is now standard, ranging from remote control, tele-remote and semi to completely autonomous. Exploration ...

This well drilling equipment comes with wireless handle control for remote operation, enhancing flexibility, efficiency and safety of well drilling. It's a top performing water ...

Find your remote-controlled drilling rig easily amongst the 37 products from the leading brands (SANY, Hengwang, Hydra, ...) on DirectIndustry, the industry ...

This compact excavator drill rig rig is easy to be attached onto an excavator and operates via remote control system. By studying our installation and start-up ...

Reverse Circulation (RC) drilling is synonymous with superior performance, renowned for its high drilling rates and ability to obtain uncontaminated drill ...

The TP-19 and TP-37 rubber track carrier platforms can be used for several purposes, including drill rig conversions, and pipe, water tank and drilling ...

AutoMine® Tele-Remote is Sandvik's entry-level smart teleoperation solution. The system provides an easy way to start exploring the full potential of Sandvik ...

These high-capacity remote-controlled drill rigs will have tilting drill heads and dual 20" hydraulic breakouts for hands-free rod handling, state of the art Driller's control cabins, Safe T Load pipe ...

Description Tele-Remote Drilling system allows to control the unit from a safe remote location (i.e; operation surface room), with a static user interface, ...

DESCRIPTION Drilling rig operated entirely by radio remote control and especially designed for the geotechnical and soil investigations sector. Complete with rotary head for coring, hydraulic ...
