

Sandvik exploration drill rigs

Products Whether you need to excavate, transport or process ore, rock or overburden more efficiently, our comprehensive range of cutting-edge surface and underground mining ...

Sandvik is renowned for its surface drill rigs, particularly the DX700 and DX800 models, which are equipped with hydraulic top hammer ...

Sandvik DR416i blasthole drill rig delivers a single-pass capacity of 21 meters (69 ft), the longest in its class along with a maximum depth of 42.4 meters (139ft) ...

Elevate your mining efficiency with DD212i underground drill by Sandvik. It features a new design, an intelligent control system, various automated ...

The AutoMine ® Concept Underground Drill is a fully autonomous, twin-boom development drill rig capable of drilling without human interaction. The cabinless battery-electric drill can plan and ...

Sandvik intelligent surface drill rigs bring the latest technology to surface mining applications. View our leading range of surface drilling rigs.

Traxxon is a leading supplier of surface drill rigs from Sandvik in Canada, providing precision rock drilling equipment for challenging applications.

The exploration drilling equipment ranges from lightweight drill rigs for exploration core drilling to heavy-duty, multipurpose drill rigs with the ability to perform both core drilling and reverse ...

Sandvik has signed an agreement to divest its Exploration business to Drillman, a subsidiary of the M Group of companies, which is 100% owned and operated in Australia. ...

AutoMine® Autonomous package is the third of three levels and includes the AutoCycle. The AutoCycle enables fully autonomous surface drilling fleet operation of multiple drill rigs from a ...

Ranger(TM) DX800 is a hydraulic, diesel-powered, self-propelled top hammer drill rig with an ergonomic cabin and rod handling system. Typical applications are ...

Sandvik has brought together some of the industry"s most outstanding expertise, products, techniques and equipment to provide a unique offering in the area of exploration drilling. ...

We engineer an extensive range of underground drill rigs for mining development and production. Available

Sandvik exploration drill rigs

in a variety of feed lengths, boom configurations and size classes, our underground ...

Sandvik DU411 is a center-articulated, carrier-mounted in-the-hole (ITH) drill that provides highly accurate drilling and enhances profitability with the lowest cost per ton. It can drill service ...

Sandvik's rotary iE series electric surface drill rigs are purpose-built for surface mining, delivering the performance, reliability, and emission-free operation your fleet needs.

Engineered for easy, ergonomic operation and safer maintenance. Sandvik solutions improve efficiency and reliability in the underground drilling. Sandvik ...

Sandvik DU211-T is a compact track-mounted in-the-hole (ITH) drill rig with a minimum width of 1.2 meters. Designed to carry ITH hammers powered with ...

The intelligent surface drill rigs from Sandvik will be used for production drilling in various large quarries or open pit mines, as well as construction work sites.

DR412i blasthole drill is designed to deliver dependable penetration and greater return on investment for rotary and DTH holes. From onboard automation that ...

SCX has a complete range of down hole tools and consumables to support exploration rigs for start up and continued operation, SCX can offer competitive tooling packages with the sale of ...

Experience efficient underground drilling with the DD322i drill rig by Sandvik. This advanced drill rig combines technology and performance for optimal mining ...

The SANDVIK Pantera DP 1600i is an advanced surface drill rig designed for efficient and high-precision drilling in demanding conditions. Equipped with a ...

Explore the precision and efficiency of the Sandvik DD422iE electric drill rig, a top-notch solution for development drill rigs in mining operations.

We engineer an extensive range of underground drill rigs for mining development and production. Learn more about our underground drilling rigs.

Our full selection of mining and surface equipment for rock drilling, crushing and screening, loading, tunneling, quarrying, breaking and demolition.

logy and rock conditions. Sandvik's expertise covers all these meth-ods, helping you to get the mo t out of your investment. Drilling rigs, roadheaders, hammers and tools as well as ...

Sandvik exploration drill rigs

Browse our extensive inventory of new and used Sandvik drills / drilling equipment from local Sandvik dealers and private sellers. Compare prices, models, trims, options and specifications ...

TECHNICAL SPECIFICATION The SCX DE881 is a heavy duty multi purpose exploration drill rig, it is the industry benchmark in performance and offers more depth capacity in both diamond ...

Enhance your mining development with the DD321 drill rig by Sandvik. It's a development rig designed for efficient underground drilling, ensuring precision.

Sandvik Rental Services offers a wide range of Surface drill rigs, such as top hammer and down-the-hole drill rigs. Sandvik intelligent surface drill rigs bring the latest technology to surface ...

Sandvik DU211-T is a compact track-mounted in-the-hole (ITH) drill rig with a minimum width of 1.2 meters. Designed to carry ITH hammers powered with compressed air, this robust ...
