

Sandvik jumbo drill rig

The Sandvik DD320S is a compact two-boom jumbo drill rig capable of face drilling, cross-cut drilling and bolt hole drilling. It has two booms that provide ...

Sandvik DD321 is a two-boom, electro-hydraulic mining development drill rig engineered to excel in demanding conditions and multiple applications. The various options of this mining jumbo ...

Sandvik DD210 is a compact, flexible single-boom electro-hydraulic jumbo for tunneling and mining development in cross sections up to 24 m²;. With its ...

Sandvik DT1132i is a fully automated tunneling jumbo with three electro-hydraulic booms. Equipped with Sandvik RD535 powerful rock drill, DT1132i reduces drilling time, increases ...

Sandvik DT912iD is a self-contained, diesel-hydraulic high-reach single boom jumbo. Designed for fast, accurate drifting and production drilling, it is ideal for ...

TECHNICAL SPECIFICATION Sandvik DT621 is a compact two-boom jumbo for demanding conditions and multiple applications. The jumbo is capable of face drilling, cross-cut drilling ...

Sandvik DD212i is an intelligent compact and versatile single boom jumbo for mining development in narrow vein operations. It features a new carrier and ...

Sandvik DD212i is an intelligent compact and versatile single boom jumbo for mining development in narrow vein operations. It features a new carrier and design, an intelligent control system, ...

Sandvik DD210-V is a compact and versatile single boom electro hydraulic jumbo for development, bolting and/or production in narrow vein mining and in small tunneling for ...

DD421 DEVELOPMENT DRILL TECHNICAL SPECIFICATION Sandvik DD421 is a two boom electro-hydraulic jumbo for fast and accurate drilling in drifting and tunneling of 8 - 60 m² cross ...

Sandvik DT821 is a two-boom jumbo designed for fast, accurate tunneling and cavern excavation drilling. It can be equipped with hydraulic or electronic ...

The document provides technical specifications for the Sandvik DD311D-40E single boom electro-hydraulic jumbo drill. It has capabilities for drilling using ...

The Sandvik DT821 is another powerful and versatile jumbo drill rig that is designed to meet the needs of

Sandvik jumbo drill rig

modern mining operations. With its advanced ...

Description Sandvik DD210 is a compact, flexible single-boom electro-hydraulic jumbo for tunneling and mining development in cross sections up to 24 m²; ...

TECHNICAL SPECIFICATION Sandvik DD210 is a compact and flexible single-boom electro-hydraulic jumbo for tunneling and mining development in cross sections up to 24 m². The ...

Sandvik DD321 is a compact two-boom jumbo capable of operating in demanding conditions, thanks to its flexibility to answer various needs such as face drilling, cross-cut drilling and bolt ...

JUMBO drilling machine produced by Sandvik Tamrock is an equipment used in the mining and construction industry. Thanks to its robust structure and high ...

Our full selection of mining and surface equipment for rock drilling, crushing and screening, loading, tunneling, quarrying, breaking and demolition.

TECHNICAL SPECIFICATION Sandvik DD320S is a compact two-boom jumbo for demanding conditions and multiple applications. The jumbo is capable of face drilling, cross-cut drilling ...

Sandvik DD321 is a two-boom, electro-hydraulic mining development drill rig engineered to excel in demanding conditions and multiple applications. The various options of ...

Sandvik Mining and Rock Solutions has launched the new Sandvik DT923i jumbo, its latest development drill rig for high power face drilling in ...

APPLICATION The Sandvik DD420-60C is a two boom electro-hydraulic jumbo for fast and accurate drilling in drifting and tunneling of 8 - 60 m² cross sections. The hydraulic controlled ...

Find out all of the information about the Sandvik Mining and Rock Technology product: tunnel jumbo drilling rig DD320S. Contact a supplier or the parent company directly to get a quote or ...

Well-maintained Sandvik Axera Twin Boom Jumbo. Fitted with 2 x HLX5 Drifters Boom 2 by TB40 and TX500 10/16 Fixed Feed Power Pack - 2HP560 (@55 ...

Sandvik DT621 is a compact two-boom jumbo for fast, accurate tunneling and cavern excavation. Equipped with RD520 rock drill, it supports face drilling, cross-cutting and bolt-hole drilling.

TECHNICAL SPECIFICATION Sandvik DD422iE is an intelligent control system based mining jumbo with electric driveline system for underground development drilling and small scale ...

Sandvik jumbo drill rig

TECHNICAL SPECIFICATION Sandvik intelligent drilling jumbo fleet (DD422i, DT922i, DT912D, DT1132i and DT1232i) represents an advanced control system based electro- and diesel ...

Sandvik DL421 is a versatile longhole drill rig engineered for large-scale production drilling in underground mines. It is designed for vertical and ...

Sandvik DD321 is a two-boom, electro-hydraulic mining development drill rig engineered to excel in demanding conditions and multiple applications. The ...
