

Sandvik long hole drill rig

Sandvik DU311 is a highly versatile and compact ITH longhole drill fitted with an onboard booster and designed for underground mining in 4 x 4 m or larger production drifts. It is capable of ...

The Sandvik DL420-15C is an electro-hydraulic long-hole drilling rig for large-scale production drilling in underground mines. The rig is capable of drilling 89 - 127 mm (3 1/2" - 5") holes up ...

Sandvik DU411 is a center-articulated, carrier-mounted in-the-hole (ITH) drill that provides highly accurate drilling and enhances profitability with the lowest cost ...

Sandvik said the rig is the diesel counterpart to the Sandvik DL422iE battery electric drill in 2021. The rig, designed for underground mass ...

Sandvik Mining and Rock Solutions has introduced its newest i-series top hammer longhole drill rig, the . Following the launch of the Sandvik ...

Sandvik Alpha(TM) is a market-leading drill system for both tunneling and mine development applications. The benefits of using it are great: you can reduce your rock tools costs with up to ...

For long-hole stoping, the DL432i rig ensures optimal drilling accuracy and productivity. Sandvik's AutoMine™; automation system enhances safety and efficiency by allowing autonomous ...

TECHNICAL SPECIFICATION Sandvik DL321 is a fully-mechanized and compact electro-hydraulic top hammer longhole drill designed for underground mass mining in 3.2 x 3.2 m or ...

logy and rock conditions. Sandvik's expertise covers all these methods, helping you to get the most out of your investment. Drilling rigs, roadheaders, hammers and tools as well as ...

It is compatible with Sandvik's Platinum level automation package, which includes one-hole and fan automation, automatic boom repositioning to the next hole, automatic stinger ...

Sandvik DU311 is a fully mechanized, center-articulated, in-the-hole (ITH) drill designed for high mobility and utility in underground mining. It is a compact yet ...

Sandvik DU411 is a center-articulated, carrier-mounted in-the-hole (ITH) drill rig that is ideal for highly accurate production drilling, as well as drilling service holes and slot raises.

TECHNICAL SPECIFICATION Sandvik DL421 is a fully-mechanized and compact electro-hydraulic top

Sandvik long hole drill rig

hammer longhole drill designed for underground mass mining in 3.6 x 3.6 m or ...

The rig is capable of ring drilling with parallel holes upward and downward with up to 5,9 m spacing. Equipped with a high-performance tophammer rock drill and boom-mounted drilling ...

Following the launch of the Sandvik DL422i battery electric drill in 2021, Sandvik Mining and Rock Solutions has now introduced its diesel ...

Sandvik DS221L is a low-profile cable bolter with one-hole automation. It is a rock reinforcement drill rig designed to work in galleries as low as two meters in underground mines and tunnels. ...

Sandvik DU412i is a fully automated in-the-hole (ITH) longhole drill fitted with an onboard booster, designed for mining in 3.2 x 3.2 meter or larger production ...

We engineer an extensive range of underground drill rigs for mining development and production. Available in a variety of feed lengths, boom configurations and size classes, our underground ...

Sandvik DL432i is a fully mechanized top hammer longhole drill designed for underground mass mining in 3.4 m x 3.4 meter or larger production drifts. It ...

Simulator for Sandvik DL421 Longhole Production Drill Rig UP192 Conversion Kit ® Immersive Technologies" UP192 Conversion Kit provides the ultimate in ...

Sandvik DL422i is a fully automated Key features longhole drill, designed for underground mass mining in 4 x 4 m or larger production drifts. It is capable of drilling vertical and inclined fans ...

TECHNICAL SPECIFICATION Sandvik DU411 is a highly versatile and compact ITH longhole drill fitted with an onboard booster and designed for underground mining in 4 x 4 m or larger ...

McDowell Equipment Sudbury, Ontario - new and used construction mining heavy equipment & parts for surface and underground delivered worldwide.

The DU431 is mounted on a 4-wheel drive frame-steered and diesel-powered carrier. It is equipped with the RH6230 top drive, CF706-F feed with fixed centralizer, CB24 telescopic ...

Simulator for Sandvik DL421 Longhole Production Drill Rig UP192 Conversion Kit ® Immersive Technologies" UP192 Conversion Kit provides the ultimate in training realism for mines ...

TECHNICAL SPECIFICATION Sandvik DL230L is a low-profile single-boom electro-hydraulic production drilling jumbo designed to work in excavations with headroom as low as 1.7 meters. ...

Sandvik long hole drill rig

Sandvik DL2710 is a fully mechanized and compact electro-hydraulic top hammer longhole drill designed for underground mining in 3.4 x 3.2 meter or larger production drifts. It is capable of ...

TECHNICAL SPECIFICATION Sandvik DL431 is a fully-mechanized, highly versatile and compact electro-hydraulic top hammer longhole drill designed for underground mass mining in 3.2 x 3.2 ...

Sandvik DU412i is a highly versatile and compact in-the-hole (ITH) longhole drill fitted with an onboard booster and designed for underground mining in 3.2 x ...

The longhole production drill is a highly intelligent and automated drill in Sandvik's i-series underground drilling offering, with options for both ...

Sandvik DL421 is a versatile longhole drill rig engineered for large-scale production drilling in underground mines. It is designed for vertical and inclined plane rings and fans, as well as ...
