

Saxon drilling rigs

Where are Saxon drilling rigs made?

Saxon's rigs are built in the US or Canada; and during 2012 alone, Saxon will have brought into Australia equipment with a total value of more than \$100 million--not the cheapest, but in terms of delivering value to the client by far the most cost effective way to conduct a drilling programme.

How many rigs does Saxon drill?

Saxon started life in Ecuador, supplying just nine rigs there; since then, it has transformed itself into a genuinely international drilling company with a fleet of about 100 rigs and a workforce of nearly 3,000 working in 13 countries.

Are Saxon rigs 'fit for project'?

The Saxon mantra is 'Fit For Project', and its latest Advanced Technology rigs, the ATD (Advance Technology Double) and ATS (Advance Technology Single) were found ideal for the conditions found in the Cooper Basin and the Queensland coalfields. Nevertheless this is a competitive market, and even these advanced technologies are widely available.

Why should you choose Saxon drilling?

Saxon Drilling invests in only the very best equipment and machinery to provide top quality work, speed, safety and efficiency. All of our machinery is tested, serviced and maintained regularly and everything is subjected to stringent, daily, on-site checks, before any work is carried out.

Which rig is suitable for over-water drilling?

This difficult access rig is suitable for over-water drilling. Support Vehicle: 4x6.5T truck Mounted on 1.3T, 5T and 8T rubber track excavators, these rigs are capable of hole depths up to 20m, at diameters ranging between 52mm and 150mm and are suitable for installation of earthing holes, micropiles and vertical anchors.

What are HH series drilling rigs?

HH Series are multipurpose drilling rigs available in various configurations, including manual, semiautomatic and automatic, for both drilling and workover operations. Automated hydraulic rigs with up to 600,000 lbs hook load, fast rig-up, reduced crew size, and enhanced safety for efficient land drilling.
