How do I know if my rotary screw air compressor needs maintenance?

If your owner's manual does not have a clear maintenance schedule, check with the rotary screw air compressor's manufacturer to confirm the schedule for your specific system. Although maintenance schedules vary between rotary screw air compressors, your maintenance schedule will look something like this*:

Does my rotary screw air compressor have a maintenance schedule?

Every air compressor model is unique and will have its own maintenance schedule, which is typically available in the owner's manual. If your owner's manual does not have a clear maintenance schedule, check with the rotary screw air compressor's manufacturer to confirm the schedule for your specific system.

Why is my air compressor not working properly?

Filters and contaminants Torn or blocked air suction filters can cause serious damage to the compressor because if it is saturated with dust or oil, the air flow will bypass it and enter the compressor with dust causing scratches on the screws.

How do I know if my air compressor is working properly?

Check the cabinet for dirt, dust, and moisture. Vacuum the dirt or dust. Important: Disconnect from power source before opening the cabinet. If present, press the test button to confirm proper operation. Keep an eye on running hours. Low load percentage can increase moisture build-up in the compressor fluid.

What happens if you don't follow your air compressor maintenance schedule?

Failure to follow the maintenance schedule could lead to a rejected warranty claim in the future. Every air compressor model is unique and will have its own maintenance schedule, which is typically available in the owner's manual.

What should I do if my air compressor is too low?

If the capacity of the air compressor is really too low, check the following: Check differential pressure over oil separator. Replace separator when necessary. Check and replace compressed air filters (if installed). Compressor does not unload. Check if pressure switch is correctly set and working.
