

## Seawolf drilling rigs

Who is Seawolf oilservices limited?

Nigeria's indigenous offshore drilling contractor, Seawolf Oilservices Limited, has finally made an entry into Nigeria, Africa's largest oil and gas industry, with three offshore jack-up rigs. Two of the three jack-up rigs, Seawolf Oritsetimeyin and Seawolf Onome, arrived the Nigerian waters on January 30.

What happens if a Seawolf oil rig is cold stacked?

Recall that on July 1, 2018, AMCON published a notice for auction of Seawolf oil rig Delta Queen, with Aliyu Kiliya & Co, an auctioning firm appointed by the receiver/manager of Seawolf Oil Services. The notice also disclosed that the rig had been cold stacked since 2012. When a rig is cold stacked, it is essentially shut down and kept in storage.

Where is Seawolf oritsetimeyin?

The Seawolf Oritsetimeyin, which is currently located at the LADOL base along the Lagos Harbour waiting for contract deployment, has participated in five bids, winning two of them. Contracts negotiations are being finalised, according to the Seawolf.

How much did rig Onome and rig oritsetimeyin cost?

Rig Onome and Rig Oritsetimeyin were built at a cost of \$508 million. First Bank took possession of the rigs following the inability of indigenous service company, Seawolf Oil Services Limited, to pay back an over N100 billion loan which was subsequently sold to AMCON in 2011.

Where are Delta Queen & Seawolf oritsetimeyin currently working?

The Delta Queen is currently working for Conoil Producing while the Seawolf Onome is on field test at Addax' OML 123, offshore Akwa Ibom. The Seawolf Oritsetimeyin, which is currently located at the LADOL base along the Lagos Harbour waiting for contract deployment, has participated in five bids, winning two of them.
