

Shuangfeng Drilling Rig Engineering Boss

What is a boss rig?

The BOSS rigs have racking capabilities ranging from 22,500 to 26,500 feet for today's horizontal drilling requirements. All Unit rigs have omni-directional walking or skidding systems designed for high-density drilling locations. Mr. Menefee was appointed President of Unit Drilling Company in November 2020.

Who is rig boss international?

Rig Boss International is a private company owned by Rusty Jordan, who has 40 years experience in the oil industry as a drilling rig operator, designer, inventor, and manufacturer. Rig Boss International operates on a solution driven approach to solve industry challenges to today's drilling and exploration operations.

Can a boss rig make a faster rig-up?

Overall, he said, he believes the BOSS rig can achieve a 15% quicker rig-up compared with other advanced-technology, fast-moving rigs and up to 40% quicker compared with conventional box-on-box rigs. Another feature is the two 2,200-hp quintuplex mud pumps, which Unit Drilling opted over triplex versions for higher pump output.

How long does a boss rig training take?

To prepare its crews for the new technologies on the BOSS rigs, Unit Drilling is putting its employees through approximately 60 days of training. The first BOSS rig began operating in the Granite Wash in Texas' Hemphill County at the end of March, drilling horizontal wells with 14,500-ft to 16,000-ft MDs.

Who is unit drilling?

Unit is focused on its core operating basins in Texas, Oklahoma, Louisiana, and New Mexico. With over 60 years of experience, Unit Drilling offers super-spec, pad-optimal rigs with excellent crews. Unit prides itself in its rig crews and an unmatched level of professionalism.

How many rigs does Unit Drill?

Unit Drilling Company was founded in 1963 with three drilling rigs. Today, the company operates 14 onshore drilling rigs in various regions throughout the United States. Unit is focused on its core operating basins in Texas, Oklahoma, Louisiana, and New Mexico.

When I was working in Iraq a few years back, my boss told me that his brother was a MechE on an oil rig in the North Sea, and made \$300k/yr working 2 on 2 off. The idea of making gobs of ...

Rig 401, the first in Unit Drilling's BOSS series, is working in the Granite Wash for Unit Petroleum, drilling horizontal wells with 14,500- to 16,000-ft MDs. The rig is ideal for ...

Shuangfeng Drilling Rig Engineering Boss

SOFE has 16 production lines with its proprietary rights on drill bits & tools, drilling rig, cementing and fracturing unit, steel pipe, etc. and built 6000hp pump test center, seven professional labs ...

Malaysia Marine and Heavy Engineering Holdings Bhd (KL:MHB) has secured a RM43 million subcontract from a subsidiary of Uzma Bhd (KL:UZMA) for the conversion of a ...

Industrial animation showing Unit Drilling Company has a new, high-tech land drilling rig known as the BOSS, which you will see in this 3D drilling animation. The new drilling gear is known as a ...

Rig Boss International operates on a solution driven approach to solve industry challenges to today's drilling and exploration operations. Specific focus is directed toward the logistics ...

We have the expertise to deliver the turn-key projects and/or the engineering services you desire. Jelec delivers, whether it is comprehensive engineering solutions for a new drilling facility, ...

655 Offshore Drilling Engineer jobs available on Indeed . Apply to Petroleum Engineer, Shell Mx Offshore, Production Operator and more!

This document is a textbook on drilling engineering that covers topics such as rotary drilling rig components and systems, geomechanics, drilling hydraulics, ...

Established in 1992, Quzhou Sanrock Heavy Industry Machinery Co., Ltd. is a manufacturer specialized in the research, development and production of DTH ...

The drilling services include drilling & completion, drilling technological service and drilling instrument manufacturing, etc. And the petroleum engineering technological series are ...

The high-torque rotator (up to 2340kgm or 16850 ft.lb torque) make it suitable for micropile and DTH drilling application. With the optional feature, "side swing device", the rig will have some ...

Near to twenty years experience in designing mobile offshore drilling units. Extensive experience in designing new build and modifications for semi-submersibles, jack-ups and drillships. ...

Industrial animation showing Unit Drilling Company has a new, high-tech land drilling rig known as the BOSS, which you will see in this 3D drilling animation.

Land rigs As mechanization made the hunt for hydrocarbons more ef-ficient, it had a direct efect on land rig design. The first land rigs were permanent wooden structures and would be left in ...

With decades of experience and a commitment to quality service, T.S.D.T. continues to be a reliable leader in

Shuangfeng Drilling Rig Engineering Boss

the environmental and geotechnical drilling industry.

RigQuip provides complete engineering design services for new build drilling rigs. We support our clients with deep technical knowledge through the drilling ...

Premier Plant Engineering, manufacturers of ground drilling rigs & equipment.
Premier 110 & 210 series drill rig for dynamic probing & soil sampling and ...

A Drilling Engineer is responsible for designing, planning, and managing drilling operations for the extraction of natural resources such as oil and gas. They work closely with a team of ...

Rig Survey International performs professional, independent surveys and inspections on all types of land and offshore drilling rigs and support vessels. RSI Engineering has provided project ...

It has more than 20 species such as water well drilling rig, core drilling rig, engineering drilling rig, DTH drilling rig, horizontal directional drilling rig, etc.

Australian Exploration Engineering specialises in the manufacture, maintenance, repair and modification of exploration drill rigs and associated exploration ...

With the largest drilling fleet worldwide, COSL operates and manages forty-eight jack-up rigs, fifteen semi-submersible rigs and five modular rigs, all which are equipped with conventional ...

Longitude undertook the full scope of naval architecture and structural design services for the conversion of the Boss 1 Jack-up drilling rig to MOPU. The ...

ABOUT Rig Boss International is a private company owned by Rusty Jordan, who has 40 years experience in the oil industry as a drilling rig operator, designer, inventor, and manufacturer. ...

I'm not really sure 3rd party hands, who don't work for the rig, really fall under any hierarchy. There is a huge pay difference from a DD to a mudlogger, but they all work independently for ...

In this article, we are discussing the oil drilling rig crew members organization chart including a task description of each personnel.

Johansson Engineering Ltd can perform the required engineering and inspections on oil industry drilling and service structures to API 4F. An oil rig in the parlance of the industry is a oil derrick ...

The SmartROC D65 Autonomous has also had an edge in pre-split drilling. At Iron Bridge, operators drill up to 30m at an angle, meaning it's relatively easy for unintended ...

Shuangfeng Drilling Rig Engineering Boss

The future of oil and gas rig drilling is here. In fact, it has been for the past 7 years at Tulsa-based Unit Drilling Company where giant, modern ...

Toolpusher: The boss of a drilling rig, working under the drilling superintendent or the corporation the rig is contracted to. Tour: A "tower" refers to a worker's shift of duty.

Australian Exploration Engineering specialises in the manufacture, maintenance, repair and modification of exploration drill rigs and associated exploration mining equipment to customers ...
