

Slawson 409 drilling rig

How many oil & gas wells has Slawson drilled?

Beginning with its first strike in 1957 in Wichita, Kansas, Slawson has drilled more than 4,000 oil and gas wells in 10 states. The company helped pioneer development of the huge Bakken oil field in North Dakota and Montana, using advanced horizontal drilling techniques that were then new to the industry.

Is Slawson a natural gas company?

The company remains active there, in California and across the Rockies as well as in Kansas, Oklahoma and Texas. Slawson recently became the first exploration company in North Dakota to use liquified natural gas to run its drilling rigs. Instead of trucking in propane, the company utilizes a product of abundant local natural gas reserves.

Does Slawson use liquified natural gas?

Slawson recently became the first exploration company in North Dakota to use liquified natural gas to run its drilling rigs. Instead of trucking in propane, the company utilizes a product of abundant local natural gas reserves. This approach reduces carbon emissions by 30 percent over diesel. Q: What is liquified natural gas (LNG)?

Where did Slawson drill a Bakken well?

Slawson drilled its first horizontal Bakken well in 1989. The company remains active there, in California and across the Rockies as well as in Kansas, Oklahoma and Texas. Slawson recently became the first exploration company in North Dakota to use liquified natural gas to run its drilling rigs.

Does Slawson use LNG to power drilling rigs?

A.: Slawson Companies believes that using LNG to power drilling rigs makes sense from both environmental and economic perspectives. Slawson recently started using liquified natural gas from North Dakota's first LNG production facility to run its rigs.

Why is Slawson exploration so important?

Nearly 60 years after its first strike, Slawson Exploration continues to find new sources of fuel crucial to the nation's economic growth and security. Slawson has drilled more than 4,000 oil and gas wells in 10 states since its start in Wichita, KS in 1957.
