

Slope climbing drilling rig

The working platform and drilling mast are automatically levelled in both planes to allow safe working on side slopes and steep inclines. The steel tracks, fitted with single grouser pads, ...

The anchor drilling rig adopts a crawler chassis, which is suitable for various complex terrains and is easy to walk. It is equipped with twist drill rods and ...

Slope Stabilization Canyon Equipment offers hydraulic and pneumatic rock drilling equipment for slope stabilization projects in remote access and is Heli ...

Our dedicated team, comprising experienced drillers, site supervisors, and project managers, coupled with our fleet of in-house rigs, ensures the efficient and ...

This two way business relationship sees Rockbit UK manufacturing drilling equipment packages to accompany their rig sales and we have co-designed the first truly multipurpose slope ...

The Morath 3-wheeled drilling unit was especially designed for use on steep slopes and embankments. This allows drilling to be carried out with low machine weights and in difficult ...

Dando Drilling International has launched a new drilling rig designed for ground investigation and remediation work on steep slopes. The ...

For example, at Boart Longyear, a pre-shift ritual should include: a safety discussion with the drill crew; a workplace assessment to identify hazards; a detailed rig checklist to ensure mast, ...

The rig has also been designed for ease of transport, with the unit able to expand on hydraulic rams from 1.5m wide to 2.1m, providing a stable base when climbing slopes and drilling.

The P60 Rotary Slope Climbing Rig, developed by Loglogic for Geotechnical Engineering, has won the Innovation award at the 2009 Ground Engineering Awards. The ...

We are an Equipment Rental Company that specializes in Steep Slope Services with Walking Excavators, Spider excavator, Spider hoe slope work, slope ...

The intent of this standard is to provide a framework for the identification, assessment and management of slope geotechnical hazards and risks in support of safety and business ...

The GT300 Rotary Rig is a track based mobile platform designed for undertaking dynamic sampling and

Slope climbing drilling rig

rotary drilling on extreme slopes such as dams or motorway and railway ...

Malcolm Drilling slope stabilization expertise is applied to safely and securely reinforce existing unstable slopes and to allow re-grading for development of new facilities. Malcolm's slope ...

The new track mounted Dando Ibex allows dynamic sampling, SPT and rotary drilling to be conducted safely and securely on previously inaccessible slopes of up to 55 degrees.

Slope stabilization is a critical aspect of civil and geotechnical engineering, particularly in areas prone to landslides or erosion. One of the most effective and innovative ...

Slope drilling units The Morath 3-wheeled drilling unit was especially designed for use on steep slopes and embankments. This allows drilling to be carried out ...

Our remote control slope climbing rigs are self-levelling and mounted with a CPT/CPTu mast or a conventional dynamic sampling and rotary mast. The rigs have full body and mast rotation ...

The P60 rotary slope-climbing rig is a track-mounted drilling rig capable of undertaking dynamic sampling and rotary drilling on slopes. It allows teams to core to depths ...

Dando Drilling International is unveiling an all-new track-mounted drill rig, the Ibex Slope. "Last year Dando's Dual Mast Terrier broke new ...

This document provides a hazard identification and risk assessment for drilling work and operations being conducted by Loyal Building ...

Canyon Equipment offers hydraulic and pneumatic rock drilling equipment for slope stabilization projects in remote access and is Heli Portable, including ...

Designed in collaboration with leading UK geotechnical contractor Bridgeway Consulting, the track mounted rig is capable of dynamic sampling, SPT and rotary drilling on ...

XDGJ series fully hydraulic crawler-type high-lift drilling rigs are mainly used in landslide and dangerous rock mass anchoring projects in the prevention and ...

Utilising one of our P60 multipurpose slope climbing rigs ensured we collected critical design information in the area of the landslide, with crane ...
