Large Oil Pump: A series of 4 that increases production rate. Produces 480 barrels per week. **Oil Drilling Rig:** Comes in 2 sizes. **Small:** A single pump jack tower. Produces 64 barrels per week. **Large:** A large Oil pump jack. Produces 96 barrels per week.

Is an oil industry profitable in Cities Skylines?

An oil industry area can be quite profitable in Cities: Skylines - especially as it levels up. So let's get yours up and running! Of the four industry specializations in Cities: Skylines Industries (farming, forestry, ore, and oil), oil is unlocked last. You'll need to have reached the Busy Town milestone to unlock it.

How do you build a small oil pump?

The Small Oil Pump is under Extractor Buildings in the Oil Industry menu tab. Build one on top of terrain where oil is present. As you place your small oil pump, a tooltip will tell you how productive it will be, depending on how abundant the resource is in the spot you're hovering over.

Can a plantation produce more oil than a large oil pump?

A Plantation will produce less than its full capacity if built on land that is not fertile. A Small Oil Pump can produce more than a Large Oil Pump if the latter is built on land with a low concentration of oil. Revisit the info overlay tool to help you find the most productive areas. Oil and ore are depleted over time.

How do oil wells work in Cities Skylines?

Oil wells are the primary source of crude oil in Cities Skylines. Strategically placing these wells near oil fields is crucial for efficient extraction. The game's mechanics dictate that oil wells are only functional when placed directly on the designated oil field resource nodes. Proximity to transportation networks is vital.

What auxiliary buildings do you need for your oil industry?

There are two types of auxiliary buildings that you can place to make your industry area more efficient. While the oil industry maintenance building increases the oil storage capacity in your buildings by 5%. You'll find the oil industry workers' barracks beside the main building on the menu.
